SUBJECT: Organic Waste Digestion Project Protocol, Public Draft Verison 1.0 (dtd. August 5, 2009)

Dear Sirs,

We offer the following comments and feedback on the subject document listed above.

- 1) Table 4.1 SSR 12 (page 15): Quantification Method boxis missing statement. (It could be metered)
- 2) Equation 5.10 (page 32): When determining the “aggregated monthly” SCF/month value of biogas flow, can the Project Developer use a universal 30-day month? Or, must the actual number of days per month (including leap-year adjustment) be used?

Sincerely,

Jeff Deane, Chief Technologist
