

## Climate Action Reserve Coal Mine Methane Project Protocol Scoping Meeting

February 10, 2009  
10:00 AM – 4:00 PM MST  
Westin Tabor Center, Tabor/Molly Room  
Denver, Colorado

Conference call: 773-945-1011  
Access code: 310-848-718

### **Session 1**

#### **The Climate Action Reserve and CMM project types**

10:00 AM – 12:00 PM

- Background on Climate Action Reserve
- Session purpose
- Protocol development process
- What is a standardized project protocol?
  - Definition of project type
  - Assessment boundary
  - Eligibility
  - Baseline emission quantification
  - Project emission quantification
  - Verification
- CMM project typology
  - Drainage system projects
  - VAM project
  - Abandoned/closed mine projects
- Existing resources

Lunch (not provided)  
12:00 PM – 1:15 PM

### **Session 2**

#### **Discussion: CMM project types and related project types**

1:30 PM – 4:00 PM

- Discussion of issues surrounding each project type
  - Additionality
  - Measurement
  - Cost
- Cross-cutting issues
  - Flaring
  - Federal lands
- Additional related project types:
  - Surface mines
  - Methane recovery at non-coal mines
  - Others?
