

PROJECT IMPLEMENTATION AGREEMENT

This Project Implementation Agreement (this “Agreement”) is entered into as of [_____, 20__], by and between the Climate Action Reserve, a California nonprofit public benefit corporation (“Reserve”) and [_____, a _____ [and _____, a _____]] ([collectively,] the “Project Owner”) in connection with [insert project name and CAR project number] (“Grassland Project”), located in [insert name of county(ies), state of project].¹ The Reserve and Project Owner shall hereinafter be referred to each as a “Party” and, collectively, as the “Parties.”

RECITALS

A. The Reserve is a nonprofit organization that establishes standards for the: (i) development and implementation of projects that seek to reduce and sequester greenhouse gas (“GHG”) emissions on certain properties (“GHG Reduction Projects”), (ii) calculation of the quantity of net GHG emission sequestration and reduction produced by GHG Reduction Projects to be registered with the Reserve and (iii) verification of the quantity of net GHG emission sequestration and reduction produced by GHG Reduction Projects already registered with the Reserve. The Reserve also issues carbon offset credits known as Climate Reserve Tonnes (“CRTs”), as defined in the Grassland Project Protocol (defined below), to GHG Reduction Projects registered with the Reserve. In addition, the Reserve tracks the use and transfer of CRTs over time in a transparent, publicly accessible online tracking system.

B. The Reserve has established the Grassland Project Protocol to ensure that Avoided Grassland Conversion projects, as further described in the Grassland Project Protocol, registered with the Reserve shall result in a net reduction of GHG emissions throughout the entire Term (defined below) and any extensions thereof.

C. [Grassland Owner is, [or Grassland Owners collectively are], the sole owner in fee simple absolute of that certain real property described in Exhibit A attached hereto, including, without limitation, and except as set forth in Recital D below, the organic carbon stored in the soil and belowground biomass on said property (the “Property”), and said Property, which if approved by the Reserve in its sole discretion, may constitute all or a portion of a legal parcel of land, [and except as hereinafter set forth,] is not subject to or encumbered by any lease, license, profit, security interest (other than a security interest held by a third-party mortgagee in connection with Qualified Financing), covenant, restriction, condition, or possessory or usufructuary interest or right in the Land (collectively, a “Property Interest”).²

D. Project Owner holds legal title to and all beneficial ownership rights and interest in all GHG Reduction Rights created by the emissions reductions achieved by the Grassland Project, as more specifically provided for in the GHG Reduction Rights Contract between Project Owner, Grassland Owner, and, if applicable, Easement Holder, which form of GHG Reduction Rights Contract is attached hereto as Exhibit B.

E. This Agreement sets forth certain liabilities, obligations and restrictions relating to the Grassland Project and the Property to (i) ensure that the Grassland Project results in a net reduction of GHG

¹ [All footnotes, except footnote 4 (relating to CARB’s cap-and-trade program as an approved Regulatory Program), to be deleted before execution.] [Note: Insert relevant provisions of Section 2.3 of the Grasslands Protocol for explanatory purposes of who may be a Project Developer; revise as appropriate.]

² [Note: this provision may need to be modified, depending on nature of ownership rights of Grassland Owner. See Section 2.3 of the Grassland Project Protocol and cut and paste relevant portions of that section here for explanatory purposes. Revise the language above if appropriate. Only the property that is subject to this Agreement will be described in Exhibit A.]

emissions as compared to the Baseline pertaining to the project throughout the entire Term (and any extensions thereof) and (ii) remains in compliance with the Grassland Project Protocol and this Agreement for the entire Term (and any extensions thereof).

F. This Agreement shall bind the Parties hereto and their successors, successors in interest, and assigns and any other Party holding a Property Interest.

G. Project Owner has completed and submitted to the Reserve that certain Grassland Project Monitoring Plan attached hereto as Exhibit C and incorporated herein by reference (the “Grassland Project Monitoring Plan”), and the Grassland Project Monitoring Plan has been approved by Parties.

AGREEMENT

NOW, THEREFORE, in consideration of the mutual covenants, terms, conditions, and restrictions contained herein, and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Project Owner hereby voluntarily agrees to enter into this Agreement and the Parties hereby agree as follows:

1. **Defined Terms.** In addition to the terms that may be defined elsewhere in this Agreement, the following terms when used in this Agreement shall be defined as follows:
 - (a) “Arbitration Costs” has the meaning ascribed to such term in Section 14.
 - (b) “Assignee” has the meaning ascribed to such term in Section 7(a)(1).
 - (c) “Assignment and Assumption Agreement” has the meaning ascribed to such term in Section 7(a)(2).
 - (d) “Avoidable Reversal” has the meaning ascribed to such term in Section 8(a).
 - (e) “Avoidable Reversal Notice” has the meaning ascribed to such term in Section 8(a)(1).
 - (f) “Baseline” is the baseline for this specific Grassland Project of Grassland Owner set forth in the Grassland Project Protocol, and subject to Section 18.
 - (g) “Breach Notice” has the meaning ascribed to such term in Section 9(a).
 - (h) “CERCLA” means the Comprehensive Environmental Response, Compensation and Liability Act, 42 U.S.C. § 9601 *et seq.*
 - (i) “CRT Costs” has the meaning ascribed to such term in Section 9(b).
 - (j) “CRTs” has the meaning ascribed to such term in the Recitals.
 - (k) “Damages” has the meaning ascribed to such term in Section 16.
 - (l) “Dispute” has the meaning ascribed to such term in Section 14.
 - (m) “Easement Holder” means that certain qualified land conservation organization or government agency which is the grantee of the Qualified Conservation Easement.
 - (n) “Effective Date” has the meaning ascribed to such term in Section 4.

- (o) “Eligible CRTs” are CRTs that are: (i) issued by the Reserve to any Avoided Grassland Conversion Project (each as further described in the Grassland Project Protocol) registered with the Reserve, or are Forest CRTs (but only in such circumstances under which the use of Forest CRTs is expressly allowed by the Grassland Project Protocol for this purpose); and (ii) Retired for the sole purpose of compensating the Reversal and not for any other purpose including, without limitation, for the purpose of offsetting the GHG emissions of third parties. Project Owner shall be required to purchase CRTs if Project Owner does not have a sufficient quantity of Eligible CRTs to fulfill Project Owner’s obligations to cause Eligible CRTs to be retired under this Agreement.
- (p) “Extended Term” has the meaning ascribed to such term in Section 5(b).
- (q) “Grassland Project” is the Avoided Grassland Conversion Project of Project Owner that is described in the approved Grassland Project Monitoring Plan.
- (r) “Grassland Project Monitoring Plan” has the meaning ascribed to such term in the Recitals.
- (s) “Grassland Project Protocol” means the Grassland Project Protocol [Insert applicable Protocol version here] incorporated herein by reference.
- (t) “GHG” has the meaning ascribed to such term in the Recitals.
- (u) “GHG Reduction Projects” has the meaning ascribed to such term in the Recitals.
- (v) “GHG Reduction Right” is an interest in the GHG emission reductions which are created as a result of the Project Activities occurring on the Property for the Term of this Agreement (and any extensions thereof). Said rights may be more particularly described in a GHG Reduction Rights Contract.
- (w) “GHG Reduction Rights Contract” means that certain legally binding and enforceable contract by and between Grassland Owner, Project Owner and, if a Qualified Conservation Easement is recorded against the Property, Easement Holder, which form of contract is attached hereto as Exhibit B, and which shall provide that Project Owner owns and holds exclusive legal title and beneficial ownership rights to all GHG Reduction Rights which are created as a result of the Project Activities (defined below) occurring on the Property for the Term of this Agreement (and any extensions thereof) as well as any and all right, interest, credit, entitlement, benefit or allowance to emit (whether now or at any future point) arising therefrom, including, without limitation, the exclusive right to be issued carbon offset credits or Climate Reserve Tonnes (“CRTs”) by any third-party entity, such as the Climate Action Reserve. Said GHG Reduction Rights Contract may, but need not, also be included as an exhibit to the Qualified Conservation Easement.
- (x) “Indemnified Parties” mean the Reserve and its directors, officers, employees, agents, contractors and representatives.
- (y) “Indemnify” has the meaning ascribed to such term in Section 16.
- (z) “Notice” has the meaning ascribed to such term in Section 12.

- (aa) “Person” means a natural person, individual, partnership, firm, association, corporation, limited liability company, trust and any other form of governmental or business entity or association.
- (bb) “Project Activities” means the act of preventing the emission of GHGs to the atmosphere (thereby achieving a permanent reduction of GHG emissions compared to the project Baseline) by avoiding crop cultivation of eligible grassland (as defined in the Grassland Project Protocol) either by (i) recording a Qualified Conservation Easement that ensures the Property will be maintained as grassland for the protection of Carbon Stocks, or (ii) transferring all of Grassland Owner’s interest in the Property to the Federal Government so as to ensure that the Property will be maintained as grassland for the protection of Carbon Stocks.
- (cc) “Project Owner” has the meaning ascribed to such term in the Recitals.
- (dd) “Project Owner Breach” has the meaning ascribed to such term in Section 9(a).
- (ee) The “Property” has the meaning ascribed to such term in the Recitals.
- (ff) “Qualified Conservation Easement” means a limitation in the form of a restriction, easement, covenant or condition which has been executed by the Grassland Owner or the Grassland Owner’s duly appointed representative, has been recorded in the Official Records of the County in which the Property is located, and is binding on all heirs, successors, and assigns of Grassland Owner and requires the Property to be retained and managed for the entire Term (and any extensions thereof) in a manner that is fully consistent with the Grassland Project Protocols, this Agreement (which Agreement may be attached to and incorporated into the Qualified Conservation Easement by reference), and Project Activities, including, without limitation, a prohibition of (i) the conversion of the Property from grassland to any other use, and (ii) all Avoidable Reversals.
- (gg) “Qualified Financing” means third-party financing of all or any portion of the Property that is secured in whole or in part by a first-priority deed of trust or mortgage.
- (hh) “Regulatory Program” has the meaning ascribed to such term in Section 4(c).
- (ii) “Reversible Emission Reductions” means quantified emission reductions from the avoided emission of carbon that is stored in either soil or biomass within the Property. Such emission reductions are considered reversible until the completion of the permanence obligations as described in Section 3.5 of the Grassland Project Protocol.
- (jj) “Reserve Tracking System” means the Reserve’s online system that tracks the status of projects registered with the Reserve.
- (kk) To “Retire” a quantity of CRTs (which quantity shall be determined in accordance with this Agreement and the Grassland Project Protocol) means to transfer a quantity of CRTs into an account, which is designated by the Reserve and dedicated to retiring CRTs, such that, after the transfer, Project Owner holds no ownership rights, including, but not limited, to rights to transfer, convey or otherwise control the transferred CRTs.
- (ll) A “Reversal” exists if the Reserve determines that some or all of the Property has experienced a significant disturbance, including, without limitation, digging or tilling.

- (mm) “Reversible Reductions” are reductions in GHG emissions quantified by the Grassland Project Protocol related to organic carbon that is stored in soil or biomass on the Project Area.
 - (nn) “Term” has the meaning ascribed to such term in Section 4.
 - (oo) “Termination Notice” has the meaning ascribed to such term in Section 4(b).
 - (pp) “Total CRTs Issued for Reversible Emission Reductions” has the meaning ascribed to such term in Section 4(b).
 - (qq) “Transfer” has the meaning ascribed to such term in Section 7(a).
 - (rr) “Unavoidable Reversal” has the meaning ascribed to such term in Section 8(b).
2. **Project Owner Obligations.** Project Owner shall: (i) fulfill all Project Owner covenants, obligations, duties and responsibilities in both this Agreement and the Grassland Project Protocol; (ii) ensure that use of and activity on the Property and the Grassland Project complies with this Agreement, the Qualified Conservation Easement, and the Grassland Project Protocol; and (iii) prevent any activity on or use of the Property that violates any aspect of the Grassland Project Protocol.
 3. **Issuance of CRTs.** The Reserve shall issue CRTs to Project Owner in amounts to be determined by the Reserve, in its reasonable discretion, based on the determination of the Reserve-approved verification body in accordance with the Grassland Project Protocol, at which time the Project Owner shall have the right to control said CRTs. Nothing in this Section 3 shall be construed or interpreted as giving Project Owner any right to ongoing CRTs or obligating the Reserve to issue CRTs to the Grassland Project or Project Owner in the future. Due to technical limitations of the Reserve Tracking System, CRTs may pass through the account of another account holder before reaching the account of the Project Owner. This procedure does not imply any ownership of the CRTs by an account holder other than the Project Owner.
 4. **Term.** This Agreement shall be effective as of the date hereof (the “Effective Date”) and shall continue in full force and effect until that date which is one-hundred (100) years following the Effective Date (the “Term”); *provided, however*, that this Agreement shall terminate prior to the end of the Term, subject to Section 18, if the requirements of subsection 4(a), 4(b), 4(c), or 4(d) below are satisfied, in which case the Parties shall execute and record a memorandum of termination indicating that this Agreement has been terminated; *and provided further* that the term may be extended as set forth in Section 5(b). This Agreement shall terminate if any of the following occur:
 - (a) The Reserve determines that: (i) an Unavoidable Reversal has occurred, (ii) as a result of the Unavoidable Reversal, the Reserve has Retired a certain quantity of CRTs from the Buffer Pool (as defined in the Grassland Project Protocol) pursuant to Section 10(b) and (iii) the Project Owner determines that the area unaffected by the Unavoidable Reversal is too small to constitute a Grassland Project (in which case subsection 4(b) applies to the area unaffected by the Unavoidable Reversal).
 - (b) Project Owner provides the Reserve with sixty (60) days' notice of Project Owner's intent to terminate this Agreement (“Termination Notice”), and Retires a quantity of Eligible CRTs equal to the total number of CRTs issued by the Reserve to the Grassland Project

and relating to Reversible Reductions on the area of the project impacted by the reversal (“Total CRTs Issued for Reversible Emission Reductions”) at any point following the Effective Date of this Agreement.

- (c) Project Owner provides Reserve with a Termination Notice and each of the following requirements are satisfied as a condition precedent to the effectiveness of the termination of this Agreement, as determined by the Reserve in its reasonable discretion: (1) Grassland Owner and/or Project Owner has registered with and covenants to participate in a federal or state regulatory program which primarily aims to offset GHG emissions (the “Regulatory Program”)³; (2) the Regulatory Program has similar goals to those of the Grassland Project Protocol, applies stringent standards and methodologies, and recognizes or otherwise accounts for CRTs issued by the Reserve to avoid double counting; and (3) Grassland Owner transfers over all CRTs issued in connection with the Grassland Project to the Regulatory Program, or alternately, the Regulatory Program agrees to assume liability for enforcing the permanence of all CRTs related to Reversible Emission Reductions that are not transferred over to the Regulatory Program. Project Owner may choose to cancel CRTs that are not eligible for transfer to the Regulatory Program in order to comply with this Section 4(c)(3), provided the CRTs have not been retired and are in Project Owner’s account at the time of cancellation.
- (d) Project Owner provides Reserve with a Termination Notice and each of the following requirements are satisfied as a condition precedent to the effectiveness of the termination of this Agreement, as determined by the Reserve in its reasonable discretion: (1) No CRTs issued by the Reserve in connection with the Grassland Project have been transacted or retired; (2) Project Owner pays any and all outstanding Reserve Account Holder fees, including CRT issuance fees at the prevailing rate as of the time of payment. Issuance fees shall be paid at the time of Grassland Project registration and subsequent issuance fees shall be paid upon Reserve approval of subsequent verifications that result in the issuance of credits; and (3) Project Owner exercises the cancellation option provided by this Section 4(d) within three years of Grassland Project registration. Upon successful termination pursuant to this Section 4(d), the Reserve shall cancel all CRTs issued in connection with the Grassland Project.

5. **Limitation on Termination and Term Extension.**

- (a) Except as provided in Section 8, no Project Owner Breach shall give Project Owner the right to cancel, rescind, or otherwise terminate this Agreement or the Grassland Project Protocol before the end of the Term (and any extensions thereof). Notwithstanding the immediately preceding sentence, nothing herein shall limit the Reserve's right to terminate, cancel, rescind or otherwise terminate this Agreement subject to the terms of this Agreement and the Grassland Project Protocol.
- (b) At any time after the Effective Date, if the Reserve issues CRTs in accordance with Section 3, then the Term of this Agreement shall be automatically extended until that date which is (100) years from the date of issuance of such additional CRTs (the “Extended Term”); *provided, however*, that in no event shall the Term, combined with all Extended Terms, continue later than that date which is one-hundred and fifty (150) years after the Effective

³ The California Air Resources Board’s cap-and-trade program, established pursuant to AB 32, is an approved Regulatory Program for purposes of satisfying this Section 4(c).

Date. Following any extension of the Term as provided in this Section 5(b), at the request of either Party to this Agreement, the Parties shall execute a memorandum of such extension of the Term of this Agreement in accordance with Section 20.

6. **Monitoring Rights of the Reserve.** The Reserve and its agents shall have the right to request any and all data and documentation related to monitoring of the Grassland Project and provisions of the Grassland Project Protocol. The Reserve and its agents shall also have the right to obtain and/or generate monitoring data related to the provisions of the Grassland Project Protocol from sources other than the Project Owner. If physical access to the Property is requested by the Reserve or its agents, Project Owner shall make all reasonable efforts to reach agreement on such access with the Grassland Owner.
7. **Transfer of GHG Reduction Rights.** This Agreement shall be binding upon the Parties hereto and their successors, successors in interest, assigns and any other party holding, acquiring, or owning a GHG Reduction Right. Any assignment and assumption of this Agreement in violation of this Section 7 shall be void, and any purported assignment of this Agreement shall constitute a Breach pursuant to Section 9 of this Agreement.
 - (a) **Assignment and Assumption.** Project Owner shall not, directly or indirectly, transfer, assign, delegate or convey (collectively, "Transfer") any GHG Reduction Right unless the:
 - (1) Third party obtaining a GHG Reduction Right (the "Assignee") agrees to assume and be bound by this Agreement and the Grassland Project Protocol unconditionally without modification or amendment, unless the Reserve, in its sole and absolute discretion, agrees in writing to a modification or amendment;
 - (2) Project Owner and Assignee both duly execute the Assignment and Assumption Agreement in the form attached hereto as Exhibit D (the "Assignment and Assumption Agreement") prior to any Transfer of any GHG Reduction Right;
 - (3) Assignee meets the requirements of Section 2.3.2 of the Grassland Project Protocol, including the execution of a GHG Reduction Rights Contract, whose parties include the Grassland Owner and the holder of the conservation easement which binds the Property; and
 - (4) Project Owner delivers a copy of the fully executed Assignment and Assumption Agreement to the Reserve within fifteen (15) days after its execution.
 - (b) **Release.** Provided that Project Owner Transfers a GHG Reduction Right in compliance with subpart (a), above, Project Owner shall be released from this Agreement at such time as Reserve provides its written consent, which consent shall not be unreasonably withheld. Notwithstanding any consent by the Reserve that releases Project Owner from this Agreement, Project Owner shall remain obligated to the Reserve, and liable for, all Project Owner Breaches that arose during the time that Project Owner held a GHG Reduction Right.
 - (c) **Copies.** Project Owner shall provide the Assignee with copies of the Grassland Project Protocol, this Agreement and all exhibits attached hereto and any amendments thereto prior to execution of the Assignment and Assumption Agreement. Assignee shall be deemed to have received the Grassland Project Protocol, this Agreement and all exhibits attached

hereto, and any amendments thereof, in accordance with the notice provisions in Section 14 of this Agreement.

- (d) Partial Transfers of the GHG Reduction Rights. This Section 7 shall apply if Project Owner Transfers GHG Reduction Rights relating to all, or any portion, of the Property. If Project Owner Transfers a GHG Reduction Right in only a portion of the Property, this Section 7 shall apply to only the GHG Reduction Right relating to the portion of the GHG Reduction Right being Transferred. Notwithstanding any provision to the contrary contained herein, if such Partial Transfer of the GHG Reduction Rights occurs without the Reserve's prior consent, the Reserve shall have the right, in its reasonable discretion, to terminate this Agreement. In the case of such termination, Project Owner shall Retire Eligible CRTs pursuant to the procedures provided by Section 4(b).
- (e) The sale, transfer, or retirement of CRTs after registration shall not be construed as a Transfer of GHG Reduction Rights.
- (f) Assignee Deemed a Project Owner After Transfer. Once a GHG Reduction Right has been Transferred, the Assignee shall be deemed to be a "Project Owner" under this Agreement and require any future party holding, owning or acquiring a GHG Reduction Right to assume this Agreement in accordance with this Section 7.

8. **Obligations of Project Owner Upon a Reversal.** Pursuant to the Grassland Project Protocol, Project Owner shall notify the Reserve of any event that may constitute a Reversal. The Project Owner shall notify the Reserve in writing not more than thirty (30) days after the Project Owner first discovers or reasonably should have discovered event(s) that may constitute an Avoidable Reversal. The Project Owner shall notify the Reserve in writing not more than one-hundred-and-eighty (180) days after the Project Owner knows or reasonably should have known of event(s) that may constitute an Unavoidable Reversal, which notice shall include (i) an explanation of the nature of the unavoidable reversal, (ii) a map, of a scale and detail reasonably acceptable to the Reserve, delineating the affected areas and (iii) a calculation of the quantity of Reversible Reductions related to the area affected by the Reversal for which CRTs have been issued, pursuant to Equation 5.14 of the Grassland Project Protocol. As set forth below, the final determination as to whether a Reversal has occurred shall be made by the Reserve.

- (a) Avoidable Reversals. If the Reserve determines that a Reversal has occurred due to any one or more of the following occurrences: (i) the Project Owner voluntarily terminates the project prior to the end of the Term, including any extension thereof; (ii) the Project Owner ceases to timely perform all required monitoring and verification for a period longer than thirty (30) days after such monitoring and verification was required to be completed; (iii) any activity occurs within the Property that leads to a significant disruption of soil carbon, including, without limitation, cropping activities (the conversion to crop land), eminent domain, mining or drilling activities, or installation of wind turbines; (iv) a natural disturbance occurs to the soil carbon within the Property that the Reserve reasonably determines to have been caused or made worse by the Grassland Owner's or Project Owner's negligence, gross negligence, willful act, or intentional mismanagement of the Property as grassland (each, an "Avoidable Reversal"), then:
 - (1) the Reserve shall deliver written notice to Project Owner of the Avoidable Reversal ("Avoidable Reversal Notice"); and

- (2) Project Owner shall: (i) within thirty (30) days of receiving the Avoidable Reversal Notice, provide a written description and explanation of the Reversal to the Reserve, which explanation shall include a map, of a scale and detail reasonably acceptable to the Reserve, delineating the affected areas; and (ii) within one-hundred-and-twenty (120) days of receiving the Avoidable Reversal Notice, Retire a quantity of Eligible CRTs as calculated pursuant to Equation 5.14 of the Grassland Project Protocol, which Eligible CRTs shall then be designated in the Reserve software as compensating for an Avoidable Reversal.
- (b) Unavoidable Reversals. If the Reserve determines that a Reversal has occurred that is not an Avoidable Reversal (“Unavoidable Reversal”), the Reserve may Retire a quantity of CRTs from the Reserve's Buffer Pool (as described in the Grassland Project Protocol) as calculated pursuant to Equation 5.14 of the Grassland Project Protocol.

9. **Remedies.**

- (a) If the Reserve determines that Project Owner has breached or violated this Agreement, including any obligation or covenant contained herein (“Project Owner Breach”), the Reserve shall deliver written notice to Project Owner of the Project Owner Breach (“Breach Notice”). If Project Owner fails to cure the Project Owner Breach within sixty (60) days of receiving the Breach Notice, the:
 - (1) Reserve may (but shall not be obligated to): (i) place a notice of breach with respect to the Grassland Project, Property and Project Owner on the Reserve Tracking System, (ii) freeze any activity of Project Owner on the Reserve Tracking System that relates to the Grassland Project and Property, including, without limitation, the transfer of CRTs, (iii) require Project Owner to cease and desist from the activity, use or alteration to the Property that gives rise to the Project Owner Breach and/or (iv) remove the Grassland Project from the Reserve Tracking System.
 - (2) Project Owner shall: (i) within ninety (90) days of receipt of the Breach Notice, provide a written description and explanation of the Project Owner Breach to the Reserve and (ii) within one-hundred-and-twenty (120) days of receiving the Breach Notice, Retire a quantity of Eligible CRTs equal to the Total CRTs Issued for Reversible Emission Reductions.
- (b) The Parties agree that the Reserve will suffer damages in the event of Project Owner's Breach or a termination of this Agreement by Project Owner pursuant to Section 4(b). Although the amount of such damages is extremely difficult or impossible to determine, the Parties agree that the cost of the CRTs Project Owner shall Retire pursuant to Section 4(b) or this Section 9 (the “CRT Costs”) is a reasonable estimate of the Reserve's loss in the event of Project Owner's Breach or termination of this Agreement by Project Owner pursuant to Section 4(b). Thus, the Reserve and Project Owner agree that the CRT Costs shall be liquidated damages but not a penalty. In no event shall this Section limit the Reserve's rights against Project Owner as set forth in this Agreement and the Grassland Project Protocol.

The Reserve and Project Owner acknowledge that they have read and understood the provisions of the foregoing liquidated damages provision and by their signatures immediately below agree to be bound by its terms. THE PROVISIONS OF THIS

SECTION 9(b) ARE INTENDED BY THE PARTIES TO COMPLY WITH THE STATUTORY REQUIREMENTS SET FORTH IN CALIFORNIA CIVIL CODE SECTION 1671.

CLIMATE ACTION RESERVE

[INSERT PROJECT OWNER]

By: _____
Name: Craig Ebert
Title: President

By: _____
Name: [insert name of signatory]
Title: [insert title of signatory]

- (c) Any failure, delay or election not to act by either Party shall not be deemed to be a waiver or a forfeiture of any right or remedy on the part of the non-acting Party with respect to this Agreement.
- (d) Without limiting any of the Reserve's remedies set forth in this Section 9 and subject to Section 14 the Reserve shall have the right to seek any and all remedies: (i) available, including those remedies at law or in equity, for any breach of this Agreement or the Grassland Project Protocol and (ii) set forth in this Agreement or the Grassland Project Protocol.

10. **Representations, Warranties and Covenants.**

- (a) As of the Effective Date, and continuing thereafter for the Term of this Agreement, including any extensions thereof, Project Owner does hereby represent and warrant that:
 - (1) All reports, statements, certificates and other data, including, without limitation, the Grassland Project Monitoring Plan, provided by and on behalf of Project Owner to the Reserve in connection with the Grassland Project Protocol, this Agreement, the Property and the Grassland Project are true, correct and complete;
 - (2) [Grassland Owner is the sole owner in fee simple of the Property;]⁴
 - (3) Project Owner owns and holds all right, title and interest in and to the GHG Reduction Rights created as a result of the Project Activities occurring on the Property as set forth in a GHG Reduction Rights Contract;
 - (4) Project Owner owns and holds all right, title and interest in and to the Grassland Project;
 - (5) Grassland Project is located completely within the boundaries of the Property;
 - (6) The execution of this Agreement by Project Owner and any consummation by Project Owner of the transactions contemplated hereby will not (i) violate any judgment, order, injunction, decree, regulation or ruling of any court or governmental entity or (ii) conflict with, result in a breach of, or constitute a default

⁴

[Note: Provision may need to be modified depending on nature of ownership rights of Grassland Owner. See footnote 1. Delete this footnote when language in document is updated.]

under the organizational documents of Project Owner, any note or other evidence of indebtedness, any mortgage, deed of trust or indenture, or any lease or other material agreement or instrument to which Project Owner is a party or by which Project Owner or the Property may be bound;

- (7) The signatory of this Agreement has the authority to execute this Agreement on behalf of Project Owner, and this Agreement and the Grassland Project Protocol are binding on and enforceable against Project Owner;
 - (8) Grassland Owner and/or Project Owner has not registered any portion of the Property, the Grassland Project, or any enterprise on the Property that is similar to the Grassland Project simultaneously with the Reserve and another entity or organization that tracks credits, benefits, emissions reductions, offsets and allowances attributable to the sequestration and reduction of carbon dioxide and GHGs;
 - (9) Project Owner has all corporate and other authority and all regulatory and other consents, approvals and authorizations necessary for it to legally: (i) enter into and perform the obligations, duties and responsibilities of this Agreement and (ii) engage in all activity, including, without limitation, the creation and transfer of CRTs, relating to this Agreement and the Grassland Project Protocol;
 - (10) If Project Owner is not a natural person, Project Owner is duly organized, validly existing and in good standing under the laws of the jurisdiction of its formation and is qualified to do business in the state in which the Property is located; and
 - (11) The legal description provided by the Project Owner and attached hereto as Exhibit A is a complete and accurate description of the Property which is the subject of the Grassland Project Monitoring Report and this Agreement.
- (b) For the Duration of the Term, Project Owner does hereby covenant to and with the Reserve that:
- (1) Project Owner shall transfer, hold and retire CRTs for the Grassland Project only in accordance with the Reserve's Terms of Use and Program Manual, each as they may be amended from time to time;
 - (2) Project Owner shall not register any portion of the Property, the Grassland Project, or any enterprise on the Property that is similar to the Grassland Project simultaneously with the Reserve and another entity or organization that tracks credits, benefits, emissions reductions, offsets and allowances attributable to the sequestration and reduction of carbon dioxide and GHGs; and
 - (3) All reports, statements, certificates representations and warranties and other data, including, without limitation the annual reporting documents, provided by and on behalf of Project Owner to the Reserve in connection with the Grassland Project Protocol, this Agreement, the Property and the Grassland Project shall be true, correct and complete.

11. **Conservation Easements Permitted.** Nothing in this Agreement shall prevent Grassland Owner from encumbering the Property with a subsequent conservation easement pursuant to California

Civil Code Sections 815 *et seq.* or other similar statutory scheme, provided that any changes to ownership of the GHG reductions related to the Grassland Project are in accordance with Section 7 of this Agreement.

12. **Notices.** All notices, instructions, requests, or other communications required or permitted under this Agreement or the Grassland Project Protocol (“Notice”) shall be in writing and sent by (i) certified or registered mail, return receipt requested, postage prepaid, (ii) overnight delivery service or (iii) personal delivery addressed as follows:

If to the Reserve: Climate Action Reserve
818 W. Seventh Street, Suite 710
Los Angeles, CA 90017
Attn: Craig Ebert, President

If to Project Owner: [insert mailing address of notifications]

Any Notice shall be deemed received and effective at the following times: (i) on the fourth business day after mailing, (ii) on the first business day after delivery to the overnight delivery service and (iii) if personally delivered, upon delivery to the addressee. Notwithstanding the foregoing, whenever a Notice under this Agreement is received on a day that is not a business day or is required to be delivered on or before a specific day which is not a business day, the day of receipt or required delivery shall automatically be extended to the next business day. The Parties may change the addresses of notices, demands, requests, or other communications hereunder by giving notice pursuant to this Section 14.

13. **Costs.** Project Owner retains all duties, obligations and responsibilities and shall bear all liabilities and costs related to the ownership, operation, upkeep, and maintenance of the Grassland Project and performance of its obligations, duties and responsibilities under this Agreement.

14. **Dispute Resolution.** Any dispute regarding any aspect of this Agreement or the Grassland Project Protocol, any act or omission which allegedly has or will breach any provision of this Agreement or the Grassland Project Protocol, or any material breach of any law related to the Grassland Project activity (each a “Dispute”) shall be submitted to arbitration in Los Angeles, California, before an experienced arbitrator selected in accordance with the rules of the American Arbitration Association or its successor. The decision of the arbitrator shall be the exclusive remedy for any Dispute, final, conclusive and binding upon the Parties. The prevailing Party in such arbitration shall be entitled to recover its costs and expenses incurred as a result of such arbitration, including reasonable attorney fees, and any such costs and expenses shall be recoverable separately from and in addition to any other amount awarded through arbitration (“Arbitration Costs”). Should any Party to this Agreement pursue any Dispute by any method other than said arbitration in violation of Section 14, the responding Party shall be entitled to recover from the initiating Party all damages, costs, expenses and attorney fees incurred as a result of such action or proceeding.

15. **Attorney Fees.** If any action is brought by any party to this Agreement to enforce or interpret its terms or provisions or the terms or provisions of the Grassland Project Protocol, the prevailing party will be entitled to reasonable attorney fees and costs incurred in connection with such action regardless of whether the Parties enter arbitration pursuant to Section 14.

16. **Indemnity.** Project Owner shall indemnify, hold harmless and defend, using counsel appointed by the Reserve (collectively, “Indemnify”), the Indemnified Parties from and against all damages,

liabilities, penalties, costs, losses, expenses, causes of action, claims, demands, or judgments, including, without limitation, reasonable attorney fees and legal costs (collectively, “Damages”), arising from or in any way connected with: (a) A breach of the terms of this Agreement by the Project Owner, (b) A breach by the Project Owner of a warranty made by the Project Owner in, or in any way connected to, this Agreement, (c) A representation made by the Project Owner in, or in any way connected to, this Agreement being untrue, incorrect, or incomplete, (d) An omission by the Project Owner, (e) for the avoidance of doubt, any untrue, incorrect, or incomplete statements contained in any one or more Attestations of Title, Attestations of Voluntary Implementation, and Attestations of Regulatory Compliance, (f) real or perceived violations of applicable laws and the Regulatory Compliance provisions set forth in the Grassland Project Protocol, and/or (g) any errors or omissions by the verifier; *provided, however*, that Project Owner shall not be obligated to Indemnify the Indemnified Parties for: (a) Arbitration Costs awarded to Project Owner upon Project Owner prevailing in arbitration pursuant to Section 14, (b) Damages caused by the Reserve and its agents entering the Property pursuant to Section 6, that are not due to Project Owner's negligence, gross negligence or willful misconduct and (c) Damages resulting from the Reserve's gross negligence or willful misconduct. This Section 16 shall survive the expiration or termination of this Agreement.

17. **Project Owner Holds No Right to, Ownership of or Control over the Buffer Pool.** The Reserve holds all rights to, ownership of and control over the Buffer Pool. Notwithstanding any other terms in this Agreement or the Grassland Project Protocol, nothing in this Agreement or the Grassland Project Protocol shall give Project Owner any right to, ownership of or control over the Reserve's Buffer Pool.
18. **No Change to Grassland Project or Baseline.** Project Owner shall not change, modify or revise the Grassland Project or Baseline in any way unless the Reserve consents to such change, modification or revision. If the Reserve consents to modification or revision of the Grassland Project or Baseline, then the Grassland Project Monitoring Plan attached hereto as Exhibit C shall be updated and recorded in accordance with this Section 18.
19. **Governing Law.** This Agreement and the Grassland Project Protocol shall be governed and construed in accordance with the laws of the State of California without reference to any conflict of laws principles that would require the application of the laws of any other jurisdiction.
20. **Amendments.** This Agreement may not be amended, supplemented, or modified unless such amendment, supplement, or modification is in writing and signed by both the Reserve and Project Owner. Notwithstanding this provision, the Reserve may, in its sole discretion, update the Assignment and Assumption Agreement, attached hereto as Exhibit D, as it deems appropriate, without Project Owner's approval. For any CRTs issued in the future related to Reversible Emission Reductions, the Term of this Agreement may be extended in accordance with this Section 20.
21. **Severability.** If any portion of this Agreement or the Grassland Project Protocol, or the application thereof to any person or circumstance, is found invalid, the remainder of the provisions of this Agreement and the Grassland Project Protocol, or the application of such provisions to persons or circumstances other than those as to which it is found to be invalid shall not be affected.
22. **Incorporation of Recitals and Exhibits.** The Recitals stated in this Agreement are fully incorporated herein by this reference with the same force and effect as though restated herein. All exhibits attached hereto are deemed incorporated into this Agreement by reference.

23. **Captions.** The captions in this instrument have been inserted solely for convenience of reference and are not a part of this instrument and shall have no effect upon construction or interpretation.
24. **No Third-Party Beneficiaries.** This Agreement and the Grassland Project Protocol are for the sole and exclusive benefit of the Reserve, and its successors, successors in interest and assigns, and Project Owner, and its successors, successors in interest and assigns, and except as set forth in Section 16, no third party will have any rights under this Agreement or the Grassland Project Protocol.
25. **Definitions.** Any capitalized terms used herein, which are not defined herein, shall have the meanings for such terms as set forth in the Grassland Project Protocol.
26. **Terms of this Agreement Govern.** In the event that any definitions, terms and provisions in this Agreement conflict with the definitions, terms and provisions in the Grassland Project Protocol, the definitions, terms and provisions in this Agreement shall govern.
27. **Entire Agreement.** This Agreement, including any exhibits attached hereto, and the Grassland Project Protocol, represent the entire agreement of the Parties with respect to the Property, Project Owner, Project, this Agreement and the Grassland Project Protocol and supersede any conflicting terms in any prior or contemporaneous oral or written agreements and all other communications.
28. **Successors and Assigns.** References to any natural person, governmental authority, publication, website, regulatory proceeding, corporation, partnership or other legal entity include its successors and lawful assigns.
29. **CERCLA.** The Parties do not intend for the Reserve to be an owner, operator, manager or responsible party pursuant to CERCLA, or otherwise be liable under CERCLA, as a result of this Agreement.
30. **Construction.** The Parties acknowledge that each party and its counsel have reviewed this Agreement and that the normal rule of construction to the effect that any ambiguities are to be resolved against the drafting party shall not be employed in the interpretation of this Agreement or any amendments or exhibits hereto.
31. **Joint and Several Liability.** If more than one Person has executed this Agreement as “Project Owner,” the representations, covenants, warranties and obligations of all such Persons hereunder shall be joint and several.
32. **Counterparts.** This Agreement may be executed in one or more counterparts, and all of the counterparts shall constitute but one and the same agreement.

[SIGNATURES ON NEXT PAGE]

IN WITNESS WHEREOF, the Parties have caused this Agreement to be executed as of the date first written above.

Exhibit D: Form of Assignment and Assumption of Project Implementation Agreement and Greenhouse Gas Reduction Rights Contract

EXHIBIT A

LEGAL DESCRIPTION OF THE PROPERTY

(See attached)

EXHIBIT B

FORM OF GREENHOUSE GAS REDUCTION RIGHTS CONTRACT⁵

THIS GREENHOUSE GAS REDUCTION RIGHTS CONTRACT (“**Contract**”) is made as of the [] day of [], 20__, by and between [], [a] (“**Grassland Owner**” [and/or “**Qualified Easement Holder**”] or “**Grantor**”) and [], a [] (“**Project Owner**” or “**Grantee**”). Capitalized terms used and not otherwise defined shall have the meanings ascribed to them in that certain Project Implementation Agreement referenced below. The Grassland Owner and Project Owner shall hereinafter be referred to each as a “**Party**” and collectively as the “**Parties**”.

RECITALS

A. The California Climate Action Reserve (“**Reserve**”) is a nonprofit organization that establishes standards for the: (i) development and implementation of projects that seek to reduce and sequester greenhouse gas (“**GHG**”) emissions on certain properties (“**GHG Reduction Projects**”), (ii) calculation of the quantity of net GHG emission sequestration and reduction produced by GHG Reduction Projects to be registered with the Reserve, and (iii) verification of the quantity of net GHG emission sequestration and reduction produced by GHG Reduction Projects already registered with the Reserve. The Reserve also issues carbon offset credits known as Climate Reserve Tonnes (“**CRTs**”) to GHG Reduction Projects registered with the Reserve. The CRTs are further defined in, and are issued pursuant to the methodologies and procedures established by, the Grassland Project Protocol adopted by the Reserve. In addition, the Reserve tracks the use and transfer of CRTs over time in a transparent, publicly accessible online tracking system.

B. The Reserve has established the Grassland Project Protocol to ensure that Avoided Grassland Conversion projects, as further described in the Grassland Project Protocol, registered with the Reserve shall generate a net reduction of GHG emissions for not less than 100 years following the issuance of each CRT.

C. Grassland Owner is, [or Grassland Owners collectively are], the sole owner in fee simple absolute of that certain real property described in Exhibit A attached hereto⁶, including, without limitation, the soil carbon on said property (the “**Property**”), and said Property is not subject to or encumbered by any lease, license, profit, security interest (other than a security interest held by a third-party mortgagee in connection with Qualified Financing), covenant, restriction, condition, or possessory or usufructuary interest or right in the Land.

D. Project Owner intends to carry out on the Property a Grassland Project approved by the Reserve (“**Grassland Project**”) pursuant to that certain Project Implementation Agreement (“**Project**”

⁵ This agreement may be a standalone agreement or may be incorporated into the Conservation Easement, which would be recorded against the property. Such recordation would have the advantage of placing subsequent purchasers on record notice of the terms and limitations contained herein, and would help ensure the contract is enforceable against successors in interest of the Grassland Owner. In the event a Grassland Owner is willing (or can be encouraged) to record the document, notarial acknowledgements are included.

⁶ Include an Exhibit A with the property description when a final GHG Rights contract is negotiated.

Implementation Agreement”) dated _____, including that certain Grassland Project Monitoring Plan incorporated therein, which is expected to result in the avoidance of emission of carbon that would otherwise be attributable to activities occurring on the Property; the Project Owner may accordingly qualify for the issuance of CRTs by the Reserve.

E. In furtherance of the Grassland Project, Project Owner and Grassland Owner have entered into that certain agreement dated _____ authorizing the Project Owner to take all actions necessary to implement the Project Implementation Agreement. Both Grassland Owner and Project Owner acknowledge that the Grassland Project Protocol requires that Avoided Grassland Conversion Projects yield surplus GHG reductions that are additional to what would have otherwise occurred absent the Grassland Project registered with the Reserve. Therefore, any attempt by Grassland Owner to separately convey or otherwise register GHG Reduction Rights would potentially undermine and frustrate the purpose of the Project Owner and the Reserve. [Accordingly, the Reserve is, and is hereby intended to be, a third-party beneficiary of this Contract.] [Both parties acknowledge and agree that this Contract is entered into in furtherance of the Grassland Project and that any attempted transfer, conveyance or registration of GHG Reduction Rights by the Grassland Owner contrary to the provisions of this Contract could subject the Project Owner to disqualification from GHG Reduction Programs and could lead to the Project Owner suffering significant financial losses as a result of the Grassland Owner’s breach of this Contract; accordingly, the Grassland Owner is obligated to notify both the Project Owner and the Reserve prior to any transfer of the Property and prior to any attempted conveyance of rights which could be construed as being contrary to the terms of this Contract].

F. In furtherance of the Grassland Project and the purposes of the Grassland Project Protocol, Grassland Owner intends to convey, and Project Owner desires to accept, all legal title to and all beneficial ownership rights and interest in all GHG emission reductions related to the Grassland Project.

G. Except as allowed and provided for under the Climate Action Reserve Program Manual,⁷ Grassland Owner represents and warrants that Recital C is correct and that it has not now, nor has Grassland Owner at any time previously, registered any portion of the Property, the Grassland Project, or any enterprise on the Property that is similar to the Grassland Project with the Reserve or any other entity or organization that tracks credits, benefits, emissions reductions, offsets and allowances attributable to the sequestration and reduction of carbon dioxide and other GHG emissions (“**Crediting Organization**”). Grassland Owner further represents and warrants that, except as allowed and provided for under the Climate Action Reserve Program Manual,⁸ Grassland Owner has no actual or constructive knowledge of any prior conveyance or registration of Project Reductions.

[H. Pursuant to the terms of that certain Project Implementation Agreement and the Grassland Project Protocol, the Property is subject to that certain Qualified Conservation Easement, recorded as instrument number _____ in the Official Records of the County of _____, pursuant to which _____ is the grantee of the Qualified Conservation Easement (“**Easement Holder**”). Nothing in this Contract shall be construed to convey or imply that Easement Holder holds any legal title

⁷ When a final GHG Reduction Rights Contract is negotiated, any prior transfer allowed by the Reserve should be more precisely disclosed so as to avoid future arguments as to whether a prior transfer was actually allowed.

⁸ Same as above.

to or beneficial ownership rights in the Project Reductions as hereinafter defined. By its signature below, Easement Holder acknowledges, understands and agrees to this provision.]⁹

NOW THEREFORE, in consideration of good and valuable consideration, the receipt of which is hereby acknowledged, it is agreed that:

1. Grassland Owner conveys, and Project Owner hereby accepts, retains, owns, and holds legal title to and all beneficial ownership rights in the following (collectively, the “**Project Reductions**”), whether created, measured, or identified at any time prior to, concurrent with, or following execution of this Contract: (i) any removal, limitation, reduction, avoidance, sequestration or mitigation of any greenhouse gas associated with the Property, including, without limitation, Climate Action Reserve Project No. [___]; and (ii) any right, interest, credit, entitlement, benefit or allowance to emit (present or future) arising from or associated with any of the foregoing, including, without limitation, the exclusive right to be issued carbon offset credits, CRTs, or an equivalent or similar credit by a third party entity such as the Climate Action Reserve.

3. Grassland Owner shall not register, nor shall it attempt to register, any portion of the Property, the Grassland Project, or any enterprise on the Property that is similar to the Grassland Project with the Reserve or any other Crediting Organization, nor shall Grassland Owner represent to any Crediting Organization that it holds any legal title to or beneficial ownership rights to Project Reductions.

4. [The Reserve is an express third-party beneficiary of this Contract, with the right to seek all available legal remedies, including but not limited to specific enforcement. Subject to the foregoing, this Contract is made and entered into solely for the protection and benefit of the Grassland Owner, the Project Owner and the Reserve and their respective successors and assigns, and no other person or entity shall have any right of action based upon any provision in this Contract.]

5. This Contract and all provisions herein shall be effective as of the date hereof (the “**Effective Date**”) and shall continue in full force and effect until that date which is one hundred and fifty years following the Effective Date (the “**Termination Date**”); provided further that this Contract shall not be terminated prior to the Termination Date without the express written consent of the Reserve, which consent may be withheld, conditioned, or delayed in the Reserve’s sole and absolute discretion. In recognition of the purposes of this Contract and the potential losses that would be suffered by the Project Owner in the event of a breach by Grassland Owner (all as set forth more fully in Recitals hereto), not less than thirty (30) days prior to any transfer or conveyance of the Property (including any transfer of the ownership or control of any entity holding title to the property, which transfer results in an actual change in control over the use of the Property), and prior to any attempted conveyance of rights which could be construed as being contrary to this Contract, Grassland Owner shall provide written notice to both the Project Owner and the Reserve at the following addresses: Project Owner: _____; Reserve: _____.

6. Grassland Owner shall notify any prospective purchaser, lessee, or other successor, heir and/or assign of this Contract prior to any conveyance of the Property or the conveyance of any interest therein or right of use thereon, including, without limitation, any lease, license, profit, covenant, restriction, condition, or other possessory or usufructuary interest or right in the Property.

⁹ Utilize this recital only where the Easement Holder is not also the project developer or is otherwise a party to the GHG Reduction Rights Contract.

7. The Parties agree that both the Project Owner and the Reserve will suffer damages in the event of Grassland Owner's Breach or a termination of this Contract. Although the amount of such damages is extremely difficult or impossible to determine at the time of execution of the Contract, the Parties agree that any and all value received by Grassland Owner for a subsequent conveyance or registration of Project Reductions is a reasonable estimate of the Project Owner and Reserve's loss in the event of Grassland Owner's Breach or termination of this Contract. Thus, the Parties agree that any such value received shall constitute liquidated damages but shall not constitute a penalty.

The Parties acknowledge that they have read and understood the provisions of the foregoing liquidated damages provision and by their signatures immediately below agree to be bound by its terms. THE PROVISIONS OF THIS SECTION ARE INTENDED BY THE PARTIES TO COMPLY WITH THE STATUTORY REQUIREMENTS SET FORTH IN CALIFORNIA CIVIL CODE SECTION 1671.

GRASSLAND OWNER

PROJECT OWNER

Name: [insert name of signatory]
Title: [insert title]

By: _____
Name: [insert name of signatory]
Title: [insert title]

8. This Contract shall be governed and construed in accordance with the laws of the State of California without reference to any conflict of laws principles that would require the application of the laws of any other jurisdiction.

9. In the event that a claim is filed relating to this Contract, whether such claim is initiated by either Party or by a third party, the prevailing party in any such dispute shall be entitled to obtain from the non-prevailing party the prevailing party's reasonable attorneys' fees and experts' fees and costs, costs related to the judicial reference, and the portion of fees and costs of the referee borne by the prevailing party. Until the referee determines the prevailing party, each party to the reference shall bear an equal share of the fees and costs of the referee and the reference proceeding.

10. THIS CONTRACT IS NOT INTENDED TO, NOR DOES IT, CREATE ANY AGENCY RELATIONSHIP, NOR SHALL IT BE CONSTRUED AS CREATING or IMPLYING ANY JOINT VENTURE OR PARTNERSHIP BETWEEN PROJECT OWNER, GRASSLAND OWNER, AND/OR THE RESERVE.

11. If any portion of this Contract, or the application thereof to any person or circumstance, is found invalid, the remainder of the provisions of this Contract, or the application of such provisions to persons or circumstances other than those as to which it is found to be invalid shall not be affected.

12. The recitals stated in this Contract are fully incorporated herein by this reference with the same force and effect as though restated herein. All exhibits attached hereto are deemed incorporated into this Contract by reference. Notwithstanding the fact that other agreements, including those referenced herein, may exist between the Parties relating to the Property, this Contract constitutes the entire agreement between the Parties, and shall supersede all other oral or written agreements between the Parties respecting the subject matter of this Contract.

13. References to any natural person, governmental authority, publication, website, regulatory proceeding, corporation, partnership or other legal entity include its successors and lawful assigns.

14. This Contract may be executed in one or more counterparts, and all of the counterparts shall constitute but one and the same agreement.

[SIGNATURE PAGES TO FOLLOW]

EXHIBIT C

GRASSLAND PROJECT MONITORING PLAN (Approved Version)

(See attached)

EXHIBIT D

ASSIGNMENT AND ASSUMPTION OF PROJECT IMPLEMENTATION AGREEMENT AND GREENHOUSE GAS REDUCTION RIGHTS CONTRACT

THIS ASSIGNMENT AND ASSUMPTION OF PROJECT IMPLEMENTATION AGREEMENT AND GREENHOUSE GAS REDUCTION RIGHTS CONTRACT ("Assignment and Assumption Agreement") is made as of the [] day of [], 20__, by and between [], [a] ("Assignor") and [], a [] ("Assignee"). Capitalized terms used and not otherwise defined shall have the meanings ascribed to them in the Project Implementation Agreement (as defined below).

RECITALS

A. The Climate Action Reserve, a California nonprofit public benefit corporation ("Reserve"), and Assignor entered into that certain Project Implementation Agreement, dated [], 20__ (the "PIA").

B. Assignor holds an interest in the GHG Reductions related to Avoided Grassland Conversion activities on the Property as defined under Exhibit A of the PIA and attached thereto.

C. Assignor is Transferring the GHG Reduction Rights to Assignee. In connection therewith, Assignor desires to delegate and Assignee desires to accept all of the Assignor's Project Owner Obligations under the PIA, including, without limitation, the provisions of the Grassland Project Protocol, and all rights, title, and interest in and to the GHG Reduction Right, subject to all of the terms on the terms and conditions set forth below.

D. Pursuant to the PIA, Assignor shall not, directly or indirectly, Transfer any GHG Reduction Right in violation of Section 7 of the PIA.

E. In accordance with Section 7 of the PIA, Assignor (i) shall deliver a copy of this Assignment and Assumption Agreement, fully executed, to the Reserve within fifteen (15) days of the date of execution and (ii) has provided Assignee with copies of the Grassland Project Protocol, the PIA and all exhibits attached thereto and any amendments thereto.

F. Assignor shall not be released of any obligation under the PIA or Grassland Project Protocol unless and until this Assignment and Assumption Agreement is consented to by the Reserve, and all other obligations and requirements set forth in Section 7(b) of the PIA are satisfied.

NOW THEREFORE, in consideration of the foregoing facts and the mutual covenants and conditions herein below set forth, it is agreed:

1. **Assignment.** Effective as of the Date of this Assignment and Assumption Agreement, Assignor hereby assigns and transfers to Assignee all of Assignor's right, title, and interest in the GHG Reduction Right and the interests conveyed by the GHG Reduction Rights Contract. [Assignor retains all

Project Owner Obligations under the PIA with respect to any portion of the GHG Reduction Right that is not conveyed, transferred, or granted that the Assignor continues to own.]¹¹

2. **Assumption.** Assignee hereby agrees to assume, fulfill, perform, be bound by, and to discharge all of the obligations, liabilities, covenants, duties and agreements of Assignor under the PIA, and to be subject to the terms and conditions thereof, it being the express intention of both Assignor and Assignee that, upon execution of this Assignment and Assumption Agreement and conveyance of the GHG Reduction Right to Assignee, Assignee shall become substituted for Assignor as “Project Owner” and “Party” under the PIA with respect to the GHG Reduction Right.

3. **Representations.** Assignor warrants and represents to Assignee that Assignor has full right and authority to make this Assignment and Assumption Agreement and vest in Assignee the rights, interests, powers and benefits hereby assigned.

4. **Counterparts.** This Assignment and Assumption Agreement may be executed in multiple counterparts, each of which shall constitute an original and all of which taken together shall constitute one and the same instrument.

5. **Binding Effect.** The provisions of this instrument shall be binding upon and inure to the benefit of Assignor and Assignee and each of their respective successors and assigns, and Assignee may assign its rights and obligations in accordance with the PIA.

6. **Conflict.** This Assignment is executed pursuant to the terms of the PIA and is intended to implement and be consistent with the terms and conditions of the PIA. If any of the provisions hereof are in conflict with the provisions of the PIA, the PIA shall control.

7. **Further Assurances.** Assignor and Assignee each hereby covenants that it will, at any time and from time to time, execute any documents and take such additional actions as the other, or its respective successors or assigns, shall reasonably require in order to more completely or perfectly carry out the transfers intended to be accomplished by this Assignment and Assumption Agreement.

8. **Governing Law.** This Assignment and Assumption Agreement shall be construed and interpreted in accordance with the laws of the State of California.

9. **Validity.** If any portion of this Assignment and Assumption Agreement, or the application thereof to any person or circumstance, is found invalid, the remainder of the provisions of this Assignment and Assumption Agreement, or the application of such provisions to persons or circumstances other than those as to which it is found to be invalid shall not be affected.

10. **Modification and Amendment.** This Assignment and Assumption Agreement may not be amended, supplemented, or modified unless such amendment, supplement, or modification is in writing and executed by the Assignor, Assignee, and the Reserve.

[SIGNATURE PAGES TO FOLLOW]

¹¹ NOTE: This provision should be retained only if it is a Partial Assignment and Assumption Agreement.

IN WITNESS WHEREOF, Assignor and Assignee have executed this Assignment and Assumption Agreement as of the date first set forth above by their duly authorized representatives.
