

## **Reserve Offset Program Manual Summary of Changes October 23, 2020**

This document highlights and summarizes changes made to the Reserve Offset Program Manual. Additional changes not highlighted below include minor editorial revisions. The revised Reserve Offset Program Manual was released on October 23, 2020.

The Reserve Offset Program Manual is available for download at <http://www.climateactionreserve.org/how/program/program-manual/>.

### **Revised Sections**

---

#### **3.4.4.1 Subsequent Verification for Forest or Urban Forest Projects**

- Nitrogen Management projects were previously included in this section as ineligible for zero-credit reporting periods. This section was updated to correctly state that Nitrogen Management projects are eligible for zero-credit reporting periods.

#### **3.10.4 The Carbon Offsetting and Reduction Scheme for International Aviation and Sustainable Development Goals**

- Added new section to provide an overview on the Carbon Offsetting and Reduction Scheme for International Aviation (CORSIA) and the Reserve's role as an approved program under CORSIA
