**SUMMARY OF REVISIONS FROM
LANDFILL PROJECT PROTOCOL VERSION 2.1 TO 3.0
December 2, 2009**

The following changes were made from the Landfill Project Protocol Version 2.1 to Version 3.0:

1. **Added eligibility provision for closed landfills with flares.**
2. **Modified GHG assessment boundary source, sink, and reservoir figure.**
3. **Modified source, sink, and reservoir table.**
4. **Modified the calculation methodology structure.**
5. **Modified monitoring parameters table for clarity.**
6. **Updated the definition of a “bioreactor” and added a definition for “closed landfill”.**
