NITRIC ACID PRODUCTION PROJECT PROTOCOL SUMMARY OF REVISIONS FROM VERSION 2.1 TO 2.2

April 18, 2019

The following changes were made from the Nitric Acid Production Project Protocol Version 2.1 to Version 2.2:

1. Updated the definition of crediting period to accommodate cases in which campaigns intersect both the first and second crediting periods (**Section 3.3**).
2. Added language on using AR4 GWP values and updated relevant equations (**Section 5**).
3. Integrated the Version 2.1 Errata & Clarifications language into the definition of reporting period (**Section 7.4**).
