PROJECT IMPLEMENTATION AGREEMENT

This Project Implementation Agreement (this “Agreement”) is entered into as of (date Reserve president will be signing), by and between the Climate Action Reserve, a California nonprofit public benefit corporation (“Reserve”) and (project owner - entity from info request form), a (entity type - e.g. a California nonprofit corporation, etc.) (the “Project Owner”) in connection with CAR###: Project Name (“Soil Enrichment Project”). The Reserve and Project Owner shall hereinafter be referred to each as a “Party” and, collectively, as the “Parties.”

RECVITALS

A. The Reserve is a nonprofit organization that establishes standards for the: (i) development and implementation of projects that seek to reduce and sequester greenhouse gas (“GHG”) emissions on certain properties (“GHG Reduction Projects”), (ii) calculation of the quantity of net GHG emission sequestration and reduction produced by GHG Reduction Projects to be registered with the Reserve and (iii) verification of the quantity of net GHG emission sequestration and reduction produced by GHG Reduction Projects already registered with the Reserve. The Reserve also issues carbon offset credits known as Climate Reserve Tonnes (“CRTs”), as defined in the Soil Enrichment Protocol (defined below), to GHG Reduction Projects registered with the Reserve. In addition, the Reserve tracks the use and transfer of CRTs over time in a transparent, publicly accessible online tracking system.

B. The Reserve has established the Soil Enrichment Protocol to ensure that Soil Enrichment Projects, as further described in the Soil Enrichment Protocol, registered with the Reserve shall result in a net reduction of GHG emissions throughout the entire Term (defined below) and any extensions thereof.

C. Project Owner holds legal title to and all beneficial ownership rights and interest in all GHG Reduction Rights created by the emissions reductions achieved by the Soil Enrichment Project, as more specifically provided for in the GHG Reduction Rights Contract(s) between Project Owner, and Field Manager(s), which form of GHG Reduction Rights Contract is attached as Exhibit C and executed GHG Reduction Rights Contract(s) are listed hereto in the schedule attached as Exhibit A.

D. This Agreement sets forth certain liabilities, obligations and restrictions relating to the Soil Enrichment Project to (i) ensure that the Soil Enrichment Project results in a net reduction of GHG emissions as compared to the Baseline pertaining to the project throughout the entire Term (and any extensions thereof) and (ii) remains in compliance with the Soil Enrichment Protocol and this Agreement for the entire Term (and any extensions thereof).

E. This Agreement shall bind the Parties hereto and their successors, successors in interest, and assigns and any other Party holding a property interest in the GHG Reduction Rights.

F. Project Owner has completed and submitted to the Reserve that certain Soil Enrichment Project Monitoring Plan attached hereto as Exhibit B and incorporated herein by reference (the “Soil Enrichment Project Monitoring Plan”).

AGREEMENT

NOW, THEREFORE, in consideration of the mutual covenants, terms, conditions, and restrictions contained herein, and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Project Owner hereby voluntarily agrees to enter into this Agreement and the Parties hereby agree as follows:
1. **Defined Terms.** In addition to the terms that may be defined elsewhere in this Agreement, the following terms when used in this Agreement shall be defined as follows:

(a) “Arbitration Costs” has the meaning ascribed to such term in Section 14.

(b) “Assignee” has the meaning ascribed to such term in Section 7(a)(1).

(c) “Assignment and Assumption Agreement” has the meaning ascribed to such term in Section 7(a)(2).

(d) “Avoidable Reversal” has the meaning ascribed to such term in Section 8(a).

(e) “Avoidable Reversal Notice” has the meaning ascribed to such term in Section 8(a)(1).

(f) “Baseline” is the baseline for this specific Soil Enrichment Project of Project Owner set forth in the Soil Enrichment Protocol, and subject to Section 18.

(g) “Breach Notice” has the meaning ascribed to such term in Section 9(a).

(i) “CRT Costs” has the meaning ascribed to such term in Section 9(b).

(j) “CRTs” has the meaning ascribed to such term in the Recitals.

(k) “Damages” has the meaning ascribed to such term in Section 16.

(l) “Dispute” has the meaning ascribed to such term in Section 14.

(m) “Effective Date” has the meaning ascribed to such term in Section 4.

(n) “Eligible CRTs” are CRTs that are: (i) issued by the Reserve to any Soil Enrichment Project (each as further described in the Soil Enrichment Protocol) registered with the Reserve, or are other CRTs (but only in such circumstances under which the use of other CRTs is expressly allowed by the Soil Enrichment Protocol for this purpose); and (ii) Retired for the sole purpose of compensating the Reversal and not for any other purpose including, without limitation, for the purpose of offsetting the GHG emissions of third parties. Project Owner shall be required to purchase CRTs if Project Owner does not have a sufficient quantity of Eligible CRTs to fulfill Project Owner’s obligations to cause Eligible CRTs to be retired under this Agreement.

(o) “Extended Term” has the meaning ascribed to such term in Section 5(b).

(p) “Field Manager” has the meaning ascribed to such term in the Soil Enrichment Protocol incorporated herein by reference.

(q) “Soil Enrichment Project” is the Soil Enrichment Project of Project Owner that is described in the Soil Enrichment Project Monitoring Plan.

(r) “Soil Enrichment Project Monitoring Plan” has the meaning ascribed to such term in the Soil Enrichment Protocol incorporated herein by reference.

“GHG” has the meaning ascribed to such term in the Recitals.

“GHG Reduction Projects” has the meaning ascribed to such term in the Recitals.

“GHG Reduction Right” is an interest in the GHG emission reductions which are created as a result of the Project Activities occurring as described in the Soil Enrichment Project Monitoring Plan for the Term of this Agreement (and any extensions thereof).

“GHG Reduction Rights Contract” means that certain legally binding and enforceable contract by and between Field Manager(s) and Project Owner and which shall provide that Project Owner owns and holds exclusive legal title and beneficial ownership rights to all GHG Reduction Rights which are created as a result of the Project Activities (defined below) occurring for the Term of this Agreement (and any extensions thereof) as well as any and all right, interest, credit, entitlement, benefit or allowance to emit (whether now or at any future point) arising therefrom, including, without limitation, the exclusive right to be issued carbon offset credits or Climate Reserve Tonnes (“CRTs”) by any third-party entity, such as the Climate Action Reserve.

“Indemnified Parties” mean the Reserve and its directors, officers, employees, agents, contractors and representatives.

“Indemnify” has the meaning ascribed to such term in Section 16.

“Notice” has the meaning ascribed to such term in Section 12.

“Person” means a natural person, individual, partnership, firm, association, corporation, limited liability company, trust and any other form of governmental or business entity or association.

“Project Activities” means the act of enhancing carbon sequestration and preventing the emission of GHGs to the atmosphere (thereby achieving a permanent reduction of GHG emissions compared to the project Baseline) by introducing any number of eligible agricultural management practices (as defined in the Soil Enrichment Protocol).

“Project Owner” has the meaning ascribed to such term in the Soil Enrichment Protocol incorporated herein by reference.

“Project Owner Breach” has the meaning ascribed to such term in Section 9(a).

“Qualified Financing” means third-party financing of all or any portion of the Property that is secured in whole or in part by a first-priority deed of trust or mortgage.

“Regulatory Program” has the meaning ascribed to such term in Section 4(c).

“Reversible Emission Reductions” means quantified emission reductions from the avoided emission of carbon that is stored in either soil or biomass within the Property. Such emission reductions are considered reversible until the completion of the permanence obligations as described in Section 3.5 of the Soil Enrichment Protocol.
2. **Project Owner Obligations.** Project Owner shall fulfill all Project Owner covenants, obligations, duties and responsibilities in both this Agreement and the Soil Enrichment Protocol.

3. **Issuance of CRTs.** The Reserve shall issue CRTs to Project Owner in amounts to be determined by the Reserve, in its reasonable discretion, based on the determination of the Reserve-approved verification body in accordance with the Soil Enrichment Protocol, at which time the Project Owner shall have the right to control said CRTs. Nothing in this Section 3 shall be construed or interpreted as giving Project Owner any right to ongoing CRTs or obligating the Reserve to issue CRTs to the Soil Enrichment Project or Project Owner in the future.

4. **Term.** This Agreement shall be effective as of the date hereof (the “Effective Date”) and shall continue in full force and effect until that date which is _____ (___) years following the Effective Date (the “Term”); provided, however, that this Agreement shall terminate prior to the end of the Term, subject to Section 18, if the requirements of subsection 4(a), 4(b), 4(c), or 4(d) below are satisfied, in which case the Parties shall execute a memorandum of termination indicating that this Agreement has been terminated; and provided further that the term may be extended as set forth in Section 5(b). This Agreement shall terminate if any of the following occur:

   (a) The Reserve determines that: (i) an Unavoidable Reversal has occurred, and (ii) as a result of the Unavoidable Reversal, the Reserve has Retired a certain quantity of CRTs from the Buffer Pool (as defined in the Soil Enrichment Protocol) pursuant to Section 10(b).
(b) Project Owner provides the Reserve with sixty (60) days' notice of Project Owner's intent to terminate this Agreement (“Termination Notice”), and Retires a quantity of Eligible CRTs equal to the total number of CRTs issued by the Reserve to the Soil Enrichment Project and relating to Reversible Reductions on the area of the project impacted by the reversal (“Total CRTs Issued for Reversible Emission Reductions”) at any point following the Effective Date of this Agreement.

(c) Project Owner provides Reserve with a Termination Notice and each of the following requirements are satisfied as a condition precedent to the effectiveness of the termination of this Agreement, as determined by the Reserve in its reasonable discretion: (1) Project Owner has registered with and covenants to participate in a federal or state regulatory program which primarily aims to offset GHG emissions (the “Regulatory Program”)\(^1\); (2) the Regulatory Program has similar goals to those of the Soil Enrichment Protocol, applies stringent standards and methodologies, and recognizes or otherwise accounts for CRTs issued by the Reserve to avoid double counting; and (3) Project Owner transfers over all CRTs issued in connection with the Soil Enrichment Project to the Regulatory Program, or alternately, the Regulatory Program agrees to assume liability for enforcing the permanence of all CRTs related to Reversible Emission Reductions that are not transferred over to the Regulatory Program. Project Owner may choose to cancel CRTs that are not eligible for transfer to the Regulatory Program in order to comply with this Section 4(c)(3), provided the CRTs have not been retired and are in Project Owner’s account at the time of cancellation.

(d) Project Owner provides Reserve with a Termination Notice and each of the following requirements are satisfied as a condition precedent to the effectiveness of the termination of this Agreement, as determined by the Reserve in its reasonable discretion: (1) No CRTs issued by the Reserve in connection with the Soil Enrichment Project have been transacted or retired; (2) Project Owner pays any and all outstanding Reserve Account Holder fees, including CRT issuance fees at the prevailing rate as of the time of payment. Issuance fees shall be paid at the time of Soil Enrichment Project registration and subsequent issuance fees shall be paid upon Reserve approval of subsequent verifications that result in the issuance of credits; and (3) Project Owner exercises the cancellation option provided by this Section 4(d) within three years of Soil Enrichment Project registration. Upon successful termination pursuant to this Section 4(d), the Reserve shall cancel all CRTs issued in connection with the Soil Enrichment Project.

5. **Limitation on Termination and Term Extension.**

(a) Except as provided in Section 8, no Project Owner Breach shall give Project Owner the right to cancel, rescind, or otherwise terminate this Agreement or the Soil Enrichment Protocol before the end of the Term (and any extensions thereof). Notwithstanding the immediately preceding sentence, nothing herein shall limit the Reserve's right to terminate, cancel, rescind or otherwise terminate this Agreement subject to the terms of this Agreement and the Soil Enrichment Protocol.

(b) At any time after the Effective Date, if the Reserve issues CRTs in accordance with Section 3, then the Term of this Agreement shall be extended until that date which is (100) years

\(^1\) The California Air Resources Board’s cap-and-trade program, established pursuant to AB 32, is an approved Regulatory Program for purposes of satisfying this Section 4(c).
from the date of issuance of such additional CRTs (the “Extended Term”), unless the Project Owner opts into an amended Project Implementation Agreement. Following any extension of the Term as provided in this Section 5(b), at the request of either Party to this Agreement, the Parties shall execute a memorandum of such extension of the Term of this Agreement in accordance with Section 20.

6. **Monitoring Rights of the Reserve.** The Reserve and its agents shall have the right to request any and all data and documentation related to monitoring of the Soil Enrichment Project and provisions of the Soil Enrichment Protocol. The Reserve and its agents shall also have the right to obtain and/or generate monitoring data related to the provisions of the Soil Enrichment Protocol from sources other than the Project Owner.

7. **Transfer of GHG Reduction Rights.** This Agreement shall be binding upon the Parties hereto and their successors, successors in interest, assigns and any other party holding, acquiring, or owning a GHG Reduction Right. Any assignment and assumption of this Agreement in violation of this Section 7 shall be void, and any purported assignment of this Agreement shall constitute a Breach pursuant to Section 9 of this Agreement.

(a) **Assignment and Assumption.** Project Owner shall not, directly or indirectly, transfer, assign, delegate or convey (collectively, “Transfer”) any GHG Reduction Right unless the:

(1) Third party obtaining a GHG Reduction Right (the “Assignee”) agrees to assume and be bound by this Agreement and the Soil Enrichment Protocol unconditionally without modification or amendment, unless the Reserve, in its sole and absolute discretion, agrees in writing to a modification or amendment;

(2) Project Owner and Assignee both duly execute the Assignment and Assumption Agreement in the form attached hereto as Exhibit D (the “Assignment and Assumption Agreement”) prior to any Transfer of any GHG Reduction Right;

(3) Assignee meets the requirements of Section 2.3.2 of the Soil Enrichment Protocol, including the execution of a GHG Reduction Rights Contract, whose parties include the Field Manager(s) involved in the Soil Enrichment Project; and

(4) Project Owner delivers a copy of the fully executed Assignment and Assumption Agreement to the Reserve within fifteen (15) days after its execution.

(b) **Release.** Provided that Project Owner Transfers a GHG Reduction Right in compliance with subpart (a), above, Project Owner shall be released from this Agreement at such time as Reserve provides its written consent, which consent shall not be unreasonably withheld. Notwithstanding any consent by the Reserve that releases Project Owner from this Agreement, Project Owner shall remain obligated to the Reserve, and liable for, all Project Owner Breaches that arose during the time that Project Owner held a GHG Reduction Right.

(c) **Copies.** Project Owner shall provide the Assignee with copies of the Soil Enrichment Protocol, this Agreement and all exhibits attached hereto and any amendments thereto prior to execution of the Assignment and Assumption Agreement. Assignee shall be deemed to have received the Soil Enrichment Protocol, this Agreement and all exhibits attached hereto, and any amendments thereof, in accordance with the notice provisions in Section 14 of this Agreement.
(d) **Partial Transfers of the GHG Reduction Rights.** This Section 7 shall apply if Project Owner Transfers GHG Reduction Rights relating to all, or any portion, of the Soil Enrichment Project. If Project Owner Transfers a GHG Reduction Right in only a portion of the Soil Enrichment Project, this Section 7 shall apply to only the GHG Reduction Right relating to the portion of the GHG Reduction Right being Transferred. Notwithstanding any provision to the contrary contained herein, if such Partial Transfer of the GHG Reduction Rights occurs without the Reserve’s prior consent, the Reserve shall have the right, in its reasonable discretion, to terminate this Agreement. In the case of such termination, Project Owner shall Retire Eligible CRTs pursuant to the procedures provided by Section 4(b).

(e) The sale, transfer, or retirement of CRTs after registration shall not be construed as a Transfer of GHG Reduction Rights.

(f) **Assignee Deemed a Project Owner After Transfer.** Once a GHG Reduction Right has been Transferred, the Assignee shall be deemed to be a “Project Owner” under this Agreement and require any future party holding, owning or acquiring a GHG Reduction Right to assume this Agreement in accordance with this Section 7.

8. **Obligations of Project Owner Upon a Reversal.** Pursuant to the Soil Enrichment Protocol, Project Owner shall notify the Reserve of any event that may constitute a Reversal. The Project Owner shall notify the Reserve in writing not more than thirty (30) days after the Project Owner first discovers or reasonably should have discovered event(s) that may constitute an Avoidable Reversal. The Project Owner shall notify the Reserve in writing not more than thirty (30) days after the Project Owner knows or reasonably should have known of event(s) that may constitute an Unavoidable Reversal, and within one year of such notice shall provide (i) an explanation of the nature of the unavoidable reversal, (ii) a map, of a scale and detail reasonably acceptable to the Reserve, delineating the affected areas and (iii) a calculation of the quantity of Reversible Reductions related to the area affected by the Reversal for which CRTs have been issued, pursuant to Equation 5.5 of the Soil Enrichment Protocol. As set forth below, the final determination as to whether a Reversal has occurred, and the extent of any such reversal, shall be made by the Reserve.

(a) **Avoidable Reversals.** If the Reserve determines that a Reversal has occurred due to any one or more of the following occurrences: (i) the Project Owner voluntarily terminates the project prior to the end of the Term, including any extension thereof; (ii) the Project Owner ceases to timely perform all required monitoring and verification for a period longer than thirty (30) days after such monitoring and verification was required to be completed; (iii) any activity occurs within the Property that leads to a significant disruption of soil carbon, including, without limitation, intensive tillage, eminent domain, or mining or drilling activities; (iv) a natural disturbance occurs to the soil carbon within the Property that the Reserve reasonably determines to have been caused or made worse by the Field Manager(s)’s or Project Owner’s negligence, gross negligence, willful act, or intentional mismanagement (each, an “Avoidable Reversal”), then:

1. the Reserve shall deliver written notice to Project Owner of the Avoidable Reversal (“Avoidable Reversal Notice”); and

2. Project Owner shall: (i) within one year of receiving the Avoidable Reversal Notice, provide a written description and explanation of the Reversal to the Reserve, which explanation shall include a map, of a scale and detail reasonably acceptable to the Reserve, delineating the affected areas; and (ii) upon confirmation by the Reserve of the calculation of the quantity of reversible
reductions impacted by the Reversal, Retire a quantity of Eligible CRTs as calculated pursuant to Equation 5.5 of the Soil Enrichment Protocol, which Eligible CRTs shall then be designated in the Reserve software as compensating for an Avoidable Reversal.

(b) **Unavoidable Reversals.** If the Reserve determines that a Reversal has occurred that is not an Avoidable Reversal (“Unavoidable Reversal”), the Reserve may Retire a quantity of CRTs from the Reserve's Buffer Pool (as described in the Soil Enrichment Protocol) as calculated pursuant to Equation 5.5 of the Soil Enrichment Protocol.

9. **Remedies.**

(a) If the Reserve determines that Project Owner has breached or violated this Agreement, including any obligation or covenant contained herein (“Project Owner Breach”), the Reserve shall deliver written notice to Project Owner of the Project Owner Breach (“Breach Notice”). If Project Owner fails to cure the Project Owner Breach within sixty (60) days of receiving the Breach Notice, the:

(1) Reserve may (but shall not be obligated to): (i) place a notice of breach with respect to the Soil Enrichment Project and Project Owner on the Reserve Tracking System, (ii) freeze any activity of Project Owner on the Reserve Tracking System that relates to the Soil Enrichment Project, including, without limitation, the transfer of CRTs, and/or (iii) remove the Soil Enrichment Project from the Reserve Tracking System.

(2) Project Owner shall: (i) within ninety (90) days of receipt of the Breach Notice, provide a written description and explanation of the Project Owner Breach to the Reserve and (ii) within one-hundred-and-twenty (120) days of receiving the Breach Notice, Retire a quantity of Eligible CRTs equal to the Total CRTs Issued for Reversible Emission Reductions.

(b) The Parties agree that the Reserve will suffer damages in the event of Project Owner's Breach or a termination of this Agreement by Project Owner pursuant to Section 4(b). Although the amount of such damages is extremely difficult or impossible to determine, the Parties agree that the cost of the CRTs Project Owner shall Retire pursuant to Section 4(b) or this Section 9 (the “CRT Costs”) is a reasonable estimate of the Reserve's loss in the event of Project Owner's Breach or termination of this Agreement by Project Owner pursuant to Section 4(b). Thus, the Reserve and Project Owner agree that the CRT Costs shall be liquidated damages but not a penalty. In no event shall this Section limit the Reserve's rights against Project Owner as set forth in this Agreement and the Soil Enrichment Protocol.

The Reserve and Project Owner acknowledge that they have read and understood the provisions of the foregoing liquidated damages provision and by their signatures immediately below agree to be bound by its terms. THE PROVISIONS OF THIS SECTION 9(b) ARE INTENDED BY THE PARTIES TO COMPLY WITH THE STATUTORY REQUIREMENTS SET FORTH IN CALIFORNIA CIVIL CODE SECTION 1671.

CLIMATE ACTION RESERVE

INSERT PROJECT OWNER ENTITY
(c) Any failure, delay or election not to act by either Party shall not be deemed to be a waiver or a forfeiture of any right or remedy on the part of the non-acting Party with respect to this Agreement.

(d) Without limiting any of the Reserve's remedies set forth in this Section 9 and subject to Section 14 the Reserve shall have the right to seek any and all remedies: (i) available, including those remedies at law or in equity, for any breach of this Agreement or the Soil Enrichment Protocol and (ii) set forth in this Agreement or the Soil Enrichment Protocol.

10. **Representations, Warranties and Covenants.**

(a) As of the Effective Date, and continuing thereafter for the Term of this Agreement, including any extensions thereof, Project Owner does hereby represent and warrant that:

(1) All reports, statements, certificates and other data, including, without limitation, the Soil Enrichment Project Monitoring Plan, provided by and on behalf of Project Owner to the Reserve in connection with the Soil Enrichment Protocol, this Agreement, the Property and the Soil Enrichment Project are true, correct and complete;

(2) Project Owner owns and holds all right, title and interest in and to the GHG Reduction Rights created as a result of the Project Activities as set forth in a GHG Reduction Rights Contract (or multiple GHG Reduction Rights Contracts);

(3) Project Owner owns and holds all right, title and interest in and to the Soil Enrichment Project;

(4) The execution of this Agreement by Project Owner and any consummation by Project Owner of the transactions contemplated hereby will not (i) violate any judgment, order, injunction, decree, regulation or ruling of any court or governmental entity or (ii) conflict with, result in a breach of, or constitute a default under the organizational documents of Project Owner, any note or other evidence of indebtedness, any mortgage, deed of trust or indenture, or any lease or other material agreement or instrument to which Project Owner is a party or by which Project Owner may be bound;

(5) The signatory of this Agreement has the authority to execute this Agreement on behalf of Project Owner, and this Agreement and the Soil Enrichment Protocol are binding on and enforceable against Project Owner;

(6) Field Manager(s) and/or Project Owner has not registered any portion of the Soil Enrichment Project, or any enterprise on the Property that is similar to the Soil Enrichment Project simultaneously with the Reserve and another entity or organization that tracks credits, benefits, emission reductions, offsets and
(7) Project Owner has all corporate and other authority and all regulatory and other consents, approvals and authorizations necessary for it to legally: (i) enter into and perform the obligations, duties and responsibilities of this Agreement and (ii) engage in all activity, including, without limitation, the creation and transfer of CRTs, relating to this Agreement and the Soil Enrichment Protocol;

(8) If Project Owner is not a natural person, Project Owner is duly organized, validly existing and in good standing under the laws of the jurisdiction of its formation and is qualified to do business in the state in which the Property is located; and

(b) For the Duration of the Term, Project Owner does hereby covenant to and with the Reserve that:

(1) Project Owner shall transfer, hold and retire CRTs for the Soil Enrichment Project only in accordance with the Reserve’s Terms of Use and Program Manual, each as they may be amended from time to time;

(2) Project Owner shall not register any portion of the Soil Enrichment Project, or any enterprise that is similar to the Soil Enrichment Project simultaneously with the Reserve and another entity or organization that tracks credits, benefits, emissions reductions, offsets and allowances attributable to the sequestration and reduction of carbon dioxide and GHGs, without prior written approval from the Reserve; and

(3) All reports, statements, certificates representations and warranties and other data, including, without limitation the annual reporting documents, provided by and on behalf of Project Owner to the Reserve in connection with the Soil Enrichment Protocol, this Agreement, and the Soil Enrichment Project shall be true, correct and complete.

11. **Notices.** All notices, instructions, requests, or other communications required or permitted under this Agreement or the Soil Enrichment Protocol (“Notice”) shall be in writing and sent by (i) certified or registered mail, return receipt requested, postage prepaid, (ii) overnight delivery service or (iii) personal delivery addressed as follows:

If to the Reserve: Climate Action Reserve
818 W. Seventh Street, Suite 710
Los Angeles, CA 90017
Attn: Craig Ebert, President

If to Project Owner: insert mailing address

Any Notice shall be deemed received and effective at the following times: (i) on the fourth business day after mailing, (ii) on the first business day after delivery to the overnight delivery service and (iii) if personally delivered, upon delivery to the addressee. Notwithstanding the foregoing, whenever a Notice under this Agreement is received on a day that is not a business day or is required to be delivered on or before a specific day which is not a business day, the day of receipt or required delivery shall automatically be extended to the next business day. The Parties may change the
addresses of notices, demands, requests, or other communications hereunder by giving notice pursuant to this Section 11.

12. **Costs.** Project Owner retains all duties, obligations and responsibilities and shall bear all liabilities and costs related to the ownership, operation, upkeep, and maintenance of the Soil Enrichment Project and performance of its obligations, duties and responsibilities under this Agreement.

13. **Dispute Resolution.** Any dispute regarding any aspect of this Agreement or the Soil Enrichment Protocol, any act or omission which allegedly has or will breach any provision of this Agreement or the Soil Enrichment Protocol, or any material breach of any law related to the Soil Enrichment Project activity (each a “Dispute”) shall be submitted to arbitration in Los Angeles, California, before an experienced arbitrator selected in accordance with the rules of the American Arbitration Association or its successor. The decision of the arbitrator shall be the exclusive remedy for any Dispute, final, conclusive and binding upon the Parties. The prevailing Party in such arbitration shall be entitled to recover its costs and expenses incurred as a result of such arbitration, including reasonable attorney fees, and any such costs and expenses shall be recoverable separately from and in addition to any other amount awarded through arbitration (“Arbitration Costs”). Should any Party to this Agreement pursue any Dispute by any method other than said arbitration in violation of Section 13, the responding Party shall be entitled to recover from the initiating Party all damages, costs, expenses and attorney fees incurred as a result of such action or proceeding.

14. **Attorney Fees.** If any action is brought by any party to this Agreement to enforce or interpret its terms or provisions or the terms or provisions of the Soil Enrichment Protocol, the prevailing party will be entitled to reasonable attorney fees and costs incurred in connection with such action regardless of whether the Parties enter arbitration pursuant to Section 13.

15. **Indemnity.** Project Owner shall indemnify, hold harmless and defend, using counsel appointed by the Reserve (collectively, “Indemnify”), the Indemnified Parties from and against all damages, liabilities, penalties, costs, losses, expenses, causes of action, claims, demands, or judgments, including without limitation, reasonable attorney fees and legal costs (collectively, “Damages”), arising from or in any way connected with: (a) A breach of the terms of this Agreement by the Project Owner, (b) A breach by the Project Owner of a warranty made by the Project Owner in, or in any way connected to, this Agreement, (c) A representation made by the Project Owner in, or in any way connected to, this Agreement being untrue, incorrect, or incomplete, (d) An omission by the Project Owner, (e) for the avoidance of doubt, any untrue, incorrect, or incomplete statements contained in any one or more Attestations of Title, Attestations of Voluntary Implementation, and Attestations of Regulatory Compliance, (f) real or perceived violations of applicable laws and the Regulatory Compliance provisions set forth in the Soil Enrichment Protocol, and/or (g) any errors or omissions by the verifier; provided, however, that Project Owner shall not be obligated to Indemnify the Indemnified Parties for: (a) Arbitration Costs awarded to Project Owner upon Project Owner prevailing in arbitration pursuant to Section 13, (b) Damages caused by the Reserve and its agents entering land hosting any part of the Soil Enrichment Project pursuant to Section 6, that are not due to Project Owner's negligence, gross negligence or willful misconduct and (c) Damages resulting from the Reserve's gross negligence or willful misconduct. This Section 15 shall survive the expiration or termination of this Agreement.

16. **Project Owner Holds No Right to, Ownership of or Control over the Buffer Pool.** The Reserve holds all rights to, ownership of and control over the Buffer Pool. Notwithstanding any other terms in this Agreement or the Soil Enrichment Protocol, nothing in this Agreement or the Soil Enrichment Protocol shall give Project Owner any right to, ownership of or control over the Reserve's Buffer Pool.
17. **No Change to Soil Enrichment Project** Project Owner shall not change, modify or revise the Soil Enrichment Project in any way unless the Reserve consents to such change, modification or revision. If the Reserve consents to modification or revision of the Soil Enrichment Project, then the Soil Enrichment Project Monitoring Plan attached hereto as Exhibit B shall be updated and recorded in accordance with this Section 17.

18. **Governing Law.** This Agreement and the Soil Enrichment Protocol shall be governed and construed in accordance with the laws of the State of California without reference to any conflict of laws principles that would require the application of the laws of any other jurisdiction.

19. **Amendments.** This Agreement may not be amended, supplemented, or modified unless such amendment, supplement, or modification is in writing and signed by both the Reserve and Project Owner. Notwithstanding this provision, the Reserve may, in its sole discretion, update the Assignment and Assumption Agreement, attached hereto as Exhibit D as it deems appropriate, without Project Owner’s approval. For any CRTs issued in the future related to Reversible Emission Reductions, the Term of this Agreement may be extended in accordance with this Section 19.

20. **Severability.** If any portion of this Agreement or the Soil Enrichment Protocol, or the application thereof to any person or circumstance, is found invalid, the remainder of the provisions of this Agreement and the Soil Enrichment Protocol, or the application of such provisions to persons or circumstances other than those as to which it is found to be invalid shall not be affected.

21. **Incorporation of Recitals and Exhibits.** The Recitals stated in this Agreement are fully incorporated herein by this reference with the same force and effect as though restated herein. All exhibits attached hereto are deemed incorporated into this Agreement by reference.

22. **Captions.** The captions in this instrument have been inserted solely for convenience of reference and are not a part of this instrument and shall have no effect upon construction or interpretation.

23. **No Third-Party Beneficiaries.** This Agreement and the Soil Enrichment Protocol are for the sole and exclusive benefit of the Reserve, and its successors, successors in interest and assigns, and Project Owner, and its successors, successors in interest and assigns, and except as set forth in Section 15, no third party will have any rights under this Agreement or the Soil Enrichment Protocol.

24. **Definitions.** Any capitalized terms used herein, which are not defined herein, shall have the meanings for such terms as set forth in the Soil Enrichment Protocol.

25. **Terms of this Agreement Govern.** In the event that any definitions, terms and provisions in this Agreement conflict with the definitions, terms and provisions in the Soil Enrichment Protocol, the definitions, terms and provisions in this Agreement shall govern.

26. **Entire Agreement.** This Agreement, including any exhibits attached hereto, and the Soil Enrichment Protocol, represent the entire agreement of the Parties with respect to the Project Owner, Project, this Agreement and the Soil Enrichment Protocol and supersede any conflicting terms in any prior or contemporaneous oral or written agreements and all other communications.

27. **Successors and Assigns.** References to any natural person, governmental authority, publication, website, regulatory proceeding, corporation, partnership or other legal entity include its successors and lawful assigns.
28. **CERCLA.** The Parties do not intend for the Reserve to be an owner, operator, manager or responsible party pursuant to CERCLA, or otherwise be liable under CERCLA, as a result of this Agreement.

29. **Construction.** The Parties acknowledge that each party and its counsel have reviewed this Agreement and that the normal rule of construction to the effect that any ambiguities are to be resolved against the drafting party shall not be employed in the interpretation of this Agreement or any amendments or exhibits hereto.

30. **Joint and Several Liability.** If more than one Person has executed this Agreement as “Project Owner,” the representations, covenants, warranties and obligations of all such Persons hereunder shall be joint and several.

31. **Counterparts.** This Agreement may be executed in one or more counterparts, and all of the counterparts shall constitute but one and the same agreement.

[SIGNATURES ON NEXT PAGE]
IN WITNESS WHEREOF, the Parties have caused this Agreement to be executed as of the date first written above.

EXHIBIT A

SCHEDULE OF GREENHOUSE GAS REDUCTION RIGHTS CONTRACTS

(See attached)
EXHIBIT B

SOIL ENRICHMENT PROJECT MONITORING PLAN

(See attached)
EXHIBIT C

FORM OF GREENHOUSE GAS REDUCTION RIGHTS CONTRACT

THIS GREENHOUSE GAS REDUCTION RIGHTS CONTRACT (“Contract”) dated as of [___] day of [___________], 20___, by and between [______________], a [_________] (“Field Manager” [and/or “Grantor”]) and [________________], a [_________] (“Project Owner” or “Grantee”). Capitalized terms used and not otherwise defined shall have the meanings ascribed to them in that certain Project Implementation Agreement referenced below. The Field Manager and Project Owner shall hereinafter be referred to each as a “Party” and collectively as the “Parties”.

RECITALS

A. The Climate Action Reserve (“Reserve”) is a nonprofit organization that establishes standards for the: (i) development and implementation of projects that seek to reduce and sequester greenhouse gas (“GHG”) emissions on certain properties (“GHG Reduction Projects”), (ii) calculation of the quantity of net GHG emission sequestration and reduction produced by GHG Reduction Projects to be registered with the Reserve, and (iii) verification of the quantity of net GHG emission sequestration and reduction produced by GHG Reduction Projects already registered with the Reserve. The Reserve also issues carbon offset credits known as Climate Reserve Tonnes (“CRTs”) to GHG Reduction Projects registered with the Reserve. The CRTs are further defined in, and are issued pursuant to the methodologies and procedures established by, the Soil Enrichment Protocol adopted by the Reserve. In addition, the Reserve tracks the use and transfer of CRTs over time in a transparent, publicly accessible online tracking system.

B. The Reserve has established the Soil Enrichment Protocol to ensure that Avoided Soil Enrichment Conversion projects, as further described in the Soil Enrichment Protocol, registered with the Reserve shall generate a net reduction of GHG emissions for a term not less than the term set out in Section 4 of that certain Project Implementation Agreement (“Project Implementation Agreement”) dated as of even date herewith following the issuance of each CRT.

C. Field Manager is the sole entity with management control over the agricultural management activities of that certain real property that is included in the GHG Reduction Project.

D. Project Owner intends to carry out a Soil Enrichment Project approved by the Reserve (“Soil Enrichment Project”) pursuant to that certain Project Implementation Agreement (“Project Implementation Agreement”) dated as of even date herewith, including that certain Soil Enrichment Project Monitoring Plan incorporated therein, which is expected to result in the avoidance of emission of carbon that would otherwise be attributable to activities of the Soil Enrichment Project; the Project Owner may accordingly qualify for the issuance of CRTs by the Reserve.

E. In furtherance of the Soil Enrichment Project, Project Owner and Field Manager have entered into this Contract authorizing the Project Owner to take all actions necessary to implement the Project Implementation Agreement. The Project Owner acknowledges that the Soil Enrichment Protocol requires that Soil Enrichment Projects yield surplus GHG reductions that are additional to what would have otherwise occurred absent the Soil Enrichment Project registered with the Reserve. Therefore, any attempt by Field Manager to separately convey or otherwise register GHG Reduction Rights would potentially undermine and frustrate the purpose of the Project Owner and the Reserve. [Accordingly, the Reserve is, and is hereby intended to be, a third-party beneficiary of this Contract.] [Both parties acknowledge and
agree that this Contract is entered into in furtherance of the Soil Enrichment Project and that any attempted
transfer, conveyance or registration of GHG Reduction Rights by the Field Manager contrary to the
provisions of this Contract could subject the Project Owner to disqualification from GHG Reduction
Programs and could lead to the Project Owner suffering significant financial losses as a result of the Field
Manager breach of this Contract; accordingly, the Field Manager is obligated to notify both the Project
Owner and the Reserve prior to any attempted conveyance of rights which could be construed as being
contrary to the terms of this Contract].

F. In furtherance of the Soil Enrichment Project and the purposes of the Soil Enrichment
Protocol, Fields Manager intends to convey, and Project Owner desires to accept, all legal title to and all
beneficial ownership rights and interest in all GHG emission reductions related to the Soil Enrichment
Project.

G. Except as allowed and provided for under the Climate Action Reserve Offset Program
Manual, Field Manager represents and warrants that Recital C is correct and that it has not now, nor has
Field Manager at any time previously, registered any portion of the Soil Enrichment Project, or any
enterprise that is similar to the Soil Enrichment Project with the Reserve or any other entity or organization
that tracks credits, benefits, emissions reductions, offsets and allowances attributable to the sequestration
and reduction of carbon dioxide and other GHG emissions ("Crediting Organization"). Field Manager
further represents and warrants that, except as allowed and provided for under the Climate Action Reserve
Program Manual, Field Manager has no actual or constructive knowledge of any prior conveyance or
registration of Project Reductions.

NOW THEREFORE, in consideration of good and valuable consideration, the receipt of which
is hereby acknowledged, it is agreed that:

1. Grantor conveys, and Grantee hereby accepts, retains, owns, and holds legal title to and all
beneficial ownership rights in the following (collectively, the “Project Reductions”), whether created,
measured, or identified at any time prior to, concurrent with, or following execution of this Contract: (i)
any removal, limitation, reduction, avoidance, sequestration or mitigation of any greenhouse gas associated
with the Soil Enrichment Project, including, without limitation, Climate Action Reserve Project No. [___];
and (ii) any right, interest, credit, entitlement, benefit or allowance to emit (present or future) arising from
or associated with any of the foregoing, including, without limitation, the exclusive right to be issued carbon
offset credits, CRTs, or an equivalent or similar credit by a third party entity such as the Climate Action
Reserve.

3. Grantor shall not register, nor shall it attempt to register, any portion of the Soil Enrichment
Project, or any enterprise that is similar to the Soil Enrichment Project with the Reserve or any other
Crediting Organization, nor shall Grantor represent to any Crediting Organization that it holds any legal
title to or beneficial ownership rights to Project Reductions.

2 When a final GHG Reduction Rights Contract is negotiated, any prior transfer allowed by the Reserve
should be more precisely disclosed so as to avoid future arguments as to whether a prior transfer
was actually allowed.

3 Same as above.

4 Note: may be deleted if the project ID is not available at the time of signing the contract.
4. [The Reserve is an express third-party beneficiary of this Contract, with the right to seek all available legal remedies, including but not limited to specific enforcement. Subject to the foregoing, this Contract is made and entered into solely for the protection and benefit of the Field Manager, the Project Owner and the Reserve and their respective successors and assigns, and no other person or entity shall have any right of action based upon any provision in this Contract.]

5. This Contract and all provisions herein shall be effective as of the date hereof (the “Effective Date”) and shall continue in full force and effect until the Effective Date (the “Termination Date”); provided further that this Contract shall not be terminated prior to the Termination Date without the express written consent of the Reserve, which consent may be withheld, conditioned, or delayed in the Reserve’s sole and absolute discretion. In recognition of the purposes of this Contract and the potential losses that would be suffered by the Project Owner in the event of a breach by Grantor (all as set forth more fully in Recitals hereto), not less than thirty (30) days prior to any transfer or conveyance of or any attempted conveyance of rights which could be construed as being contrary to this Contract, Grantor shall provide written notice to both the Grantee and the Reserve at the following addresses: Grantee: ____________________; Reserve: ____________________.

6. Field Manager shall notify any prospective purchaser, lessee, or other successor, heir and/or assign of this Contract prior to any conveyance of any interest therein or right of use thereon, including, without limitation, any lease, license, profit, covenant, restriction, condition, or other possessory or usufructuary interest or right over the Soil Enrichment Project.

7. The Parties agree that both the Grantee and the Reserve will suffer damages in the event of Grantor’s Breach or a termination of this Contract. Although the amount of such damages is extremely difficult or impossible to determine at the time of execution of the Contract, the Parties agree that any and all value received by Grantor for a subsequent conveyance or registration of Project Reductions is a reasonable estimate of the Grantee and Reserve's loss in the event of Field Manager’s Breach or termination of this Contract. Thus, the Parties agree that any such value received shall constitute liquidated damages but shall not constitute a penalty.

The Parties acknowledge that they have read and understood the provisions of the foregoing liquidated damages provision and by their signatures immediately below agree to be bound by its terms. THE PROVISIONS OF THIS SECTION ARE INTENDED BY THE PARTIES TO COMPLY WITH THE STATUTORY REQUIREMENTS SET FORTH IN CALIFORNIA CIVIL CODE SECTION 1671.

FIELD MANAGER PROJECT OWNER

Name: [insert name of signatory] Name: [insert name of signatory]
Title: [insert title] Title: [insert title]

8. This Contract shall be governed and construed in accordance with the laws of the State of California without reference to any conflict of laws principles that would require the application of the laws of any other jurisdiction.

9. In the event that a claim is filed relating to this Contract, whether such claim is initiated by either Party or by a third party, the prevailing party in any such dispute shall be entitled to obtain from the non-prevailing party the prevailing party's reasonable attorneys' fees and experts' fees and costs, costs related to the judicial reference, and the portion of fees and costs of the referee borne by the prevailing party. Until the referee determines the prevailing party, each party to the reference shall bear an equal share of the fees and costs of the referee and the reference proceeding.
10. THIS CONTRACT IS NOT INTENDED TO, NOR DOES IT, CREATE ANY AGENCY RELATIONSHIP, NOR SHALL IT BE CONSTRUED AS CREATING or IMPLIED ANY JOINT VENTURE OR PARTNERSHIP BETWEEN PROJECT OWNER, FIELD MANAGER, AND/OR THE RESERVE.

11. If any portion of this Contract, or the application thereof to any person or circumstance, is found invalid, the remainder of the provisions of this Contract, or the application of such provisions to persons or circumstances other than those as to which it is found to be invalid shall not be affected.

12. The recitals stated in this Contract are fully incorporated herein by this reference with the same force and effect as though restated herein. All exhibits attached hereto are deemed incorporated into this Contract by reference. Notwithstanding the fact that other agreements, including those referenced herein, may exist between the Parties relating to the Soil Enrichment Project, this Contract constitutes the entire agreement between the Parties, and shall supersede all other oral or written agreements between the Parties respecting the subject matter of this Contract.

13. References to any natural person, governmental authority, publication, website, regulatory proceeding, corporation, partnership or other legal entity include its successors and lawful assigns.

14. This Contract may be executed in one or more counterparts, and all of the counterparts shall constitute but one and the same agreement.

[SIGNATURE PAGES TO FOLLOW]
IN WITNESS WHEREOF, Field Manager/Grantor and Project Owner/Grantee have executed this Contract as of the date first set forth above by their duly authorized representatives.

EXHIBIT D

ASSIGNMENT AND ASSUMPTION OF PROJECT IMPLEMENTATION AGREEMENT AND GREENHOUSE GAS REDUCTION RIGHTS CONTRACT

THIS ASSIGNMENT AND ASSUMPTION OF PROJECT IMPLEMENTATION AGREEMENT AND GREENHOUSE GAS REDUCTION RIGHTS CONTRACT ("Assignment and Assumption Agreement") is made as of the [___] day of [________], 20___, by and between [____________], [a __________] ("Assignor") and [________________], a [________] ("Assignee"). Capitalized terms used and not otherwise defined shall have the meanings ascribed to them in the Project Implementation Agreement (as defined below).

RECITALS

A. The Climate Action Reserve, a California nonprofit public benefit corporation ("Reserve"), and Assignor entered into that certain Project Implementation Agreement, dated [___________], 20__ (the "PIA").

B. Assignor holds an interest in the GHG Reductions related to Soil Enrichment Project activities as defined in the PIA and attached thereto.

C. Assignor is Transferring the GHG Reduction Rights to Assignee. In connection therewith, Assignor desires to delegate and Assignee desires to accept all of the Assignor’s Project Owner Obligations under the PIA, including, without limitation, the provisions of the Soil Enrichment Protocol, and all rights, title, and interest in and to the GHG Reduction Right, subject to all of the terms on the terms and conditions set forth below.

D. Pursuant to the PIA, Assignor shall not, directly or indirectly, Transfer any GHG Reduction Right in violation of Section 7 of the PIA.

E. In accordance with Section 7 of the PIA, Assignor (i) shall deliver a copy of this Assignment and Assumption Agreement, fully executed, to the Reserve within fifteen (15) days of the date of execution and (ii) has provided Assignee with copies of the Soil Enrichment Protocol, the PIA and all exhibits attached thereto and any amendments thereto.

F. Assignor shall not be released of any obligation under the PIA or Soil Enrichment Protocol unless and until this Assignment and Assumption Agreement is consented to by the Reserve, and all other obligations and requirements set forth in Section 7(b) of the PIA are satisfied.

NOW THEREFORE, in consideration of the foregoing facts and the mutual covenants and conditions herein below set forth, it is agreed:

1. Assignment. Effective as of the Date of this Assignment and Assumption Agreement, Assignor hereby assigns and transfers to Assignee all of Assignor’s right, title, and interest in the GHG Reduction Right and the interests conveyed by the GHG Reduction Rights Contract. [Assignor retains all
Project Owner Obligations under the PIA with respect to any portion of the GHG Reduction Right that is not conveyed, transferred, or granted that the Assignor continues to own.] 5

2. **Assumption.** Assignee hereby agrees to assume, fulfill, perform, be bound by, and to discharge all of the obligations, liabilities, covenants, duties and agreements of Assignor under the PIA, and to be subject to the terms and conditions thereof, it being the express intention of both Assignor and Assignee that, upon execution of this Assignment and Assumption Agreement and conveyance of the GHG Reduction Right to Assignee, Assignee shall become substituted for Assignor as “Project Owner” and “Party” under the PIA with respect to the GHG Reduction Right.

3. **Representations.** Assignor warrants and represents to Assignee that Assignor has full right and authority to make this Assignment and Assumption Agreement and vest in Assignee the rights, interests, powers and benefits hereby assigned.

4. **Counterparts.** This Assignment and Assumption Agreement may be executed in multiple counterparts, each of which shall constitute an original and all of which taken together shall constitute one and the same instrument.

5. **Binding Effect.** The provisions of this instrument shall be binding upon and inure to the benefit of Assignor and Assignee and each of their respective successors and assigns, and Assignee may assign its rights and obligations in accordance with the PIA.

6. **Conflict.** This Assignment is executed pursuant to the terms of the PIA and is intended to implement and be consistent with the terms and conditions of the PIA. If any of the provisions hereof are in conflict with the provisions of the PIA, the PIA shall control.

7. **Further Assurances.** Assignor and Assignee each hereby covenants that it will, at any time and from time to time, execute any documents and take such additional actions as the other, or its respective successors or assigns, shall reasonably require in order to more completely or perfectly carry out the transfers intended to be accomplished by this Assignment and Assumption Agreement.

8. **Governing Law.** This Assignment and Assumption Agreement shall be construed and interpreted in accordance with the laws of the State of California.

9. **Validity.** If any portion of this Assignment and Assumption Agreement, or the application thereof to any person or circumstance, is found invalid, the remainder of the provisions of this Assignment and Assumption Agreement, or the application of such provisions to persons or circumstances other than those as to which it is found to be invalid shall not be affected.

10. **Modification and Amendment.** This Assignment and Assumption Agreement may not be amended, supplemented, or modified unless such amendment, supplement, or modification is in writing and executed by the Assignor, Assignee, and the Reserve.

[Signature pages to follow]
IN WITNESS WHEREOF, Assignor and Assignee have executed this Assignment and Assumption Agreement as of the date first set forth above by their duly authorized representatives.
