

The most trusted, efficient, and experienced  
offset registry for global carbon markets

CLIMATE ACTION NEWS

March 2023

President's letter

Greetings,

Global interest in carbon markets has skyrocketed in recent years, raising a drumbeat to ensure environmental integrity while fostering innovation and scalability. The successful growth of carbon markets will rely on how market participants and policy leaders resolve outstanding concerns, including determining and implementing the optimal strategies to address corresponding adjustments, quality control and oversight, new technologies and innovations, financing challenges, integration of SDG reporting into GHG reduction projects, and policy support on subnational, national, and international levels.

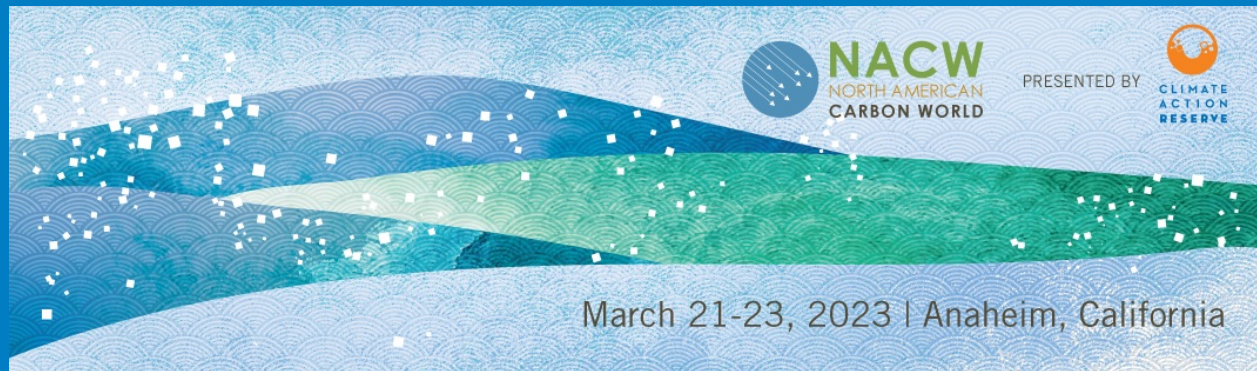

On par with the unprecedented growth and interest in carbon markets across the globe, NACW is also experiencing unprecedented growth and interest. Due to the overwhelming demand, we have reached capacity limits at the conference venue and registration for NACW is now closed. We apologize for the inconvenience. Recordings of the sessions will be made available after the conference on our YouTube channel (<https://www.youtube.com/c/climatereserve>). We hope you'll be able to join us or to benefit from the recorded conference sessions. Together we can, and must, shape the low-carbon future. [www.nacwconference.com](http://www.nacwconference.com)

Kind regards,

Craig Ebert

President

NACW 2023

## Climate policy and carbon market thought leaders to convene at NACW 2023

We're honored and excited to be welcoming so many engaged carbon market and climate policy professionals to NACW! For 20 years, the NACW conference has been the place for carbon professionals working in North American carbon markets and climate policy to learn, collaborate, and network. Taking place **March 21-23** in Anaheim, California, NACW 2023 will dive into new policies and developments that will shape and scale carbon markets and climate solutions with integrity, ambition, and equity.

Due to capacity limits at the venue, registration is now closed. If you're joining us in person, we look forward to your participation. If you are unable to join us in person, please note that sessions will be recorded and posted on our YouTube channel after the event: <https://www.youtube.com/c/climatereserve>.

Reserve offset program

## Participate in the development of the China Adipic Acid Production Protocol

The Reserve has kicked off development of the [China Adipic Acid Production Protocol](#). The protocol will address nitrous oxide (N<sub>2</sub>O) emission reductions at adipic acid production facilities in China. For more information on the protocol development process, including how to participate in the workgroup and local engagement, draft protocols, and kickoff webinar presentation and recordings,

please visit the [China Adipic Acid Production Protocol webpage](#).

---

## Join us Friday, March 17 for the U.S. Low-Carbon Cement workgroup meeting 4

The Reserve will be hosting the fourth workgroup meeting for the [U.S. Low-Carbon Cement Protocol](#) on Friday, March 17, 9:00 am - 12:00 pm PT. Register as an observer [here](#). Documents and the recordings for the first three workgroup meetings are available on the [U.S. Low-Carbon Cement Protocol webpage](#).

---

## Take the recorded General Verification Training course on your schedule

The Reserve is offering access to a [recorded General Verification Training](#) (\$700) that will cover the activities and procedures for completing verification of projects under the Reserve program. Individuals must complete homework, attend a live Q+A session on Wednesday, March 8, access the recorded training, and successfully pass the course examination.

---

## Participate in our Account Holder Survey on Non-GHG Impacts of Carbon Projects

We are assessing the needs of our account holders to report, quantify, and/or verify non-GHG impacts of carbon projects. The goal of [this survey](#) is to review and improve the current framework for the identification and communication of non-GHG impacts that can be implemented into our Reserve offsets and Climate Forward programs. [The survey](#) has 10 questions and will take approximately 10 minutes to complete. Your responses will be anonymous, and we will not collect any identifying information. The survey will remain open and responses collected on an ongoing basis.

---

## Reserve 2021 Annual Report available

The [Reserve's 2021 Annual Report](#) highlights our achievements and activities during the 2021

calendar year. Checkout our accomplishments!

Latin America

## Join us March 29 for the Guatemala Forest Protocol kickoff webinar

The Reserve is kicking off development of the [Guatemala Forest Protocol](#), which will address greenhouse gas removals associated with forest sector activities in Guatemala.

Join us for the Guatemala Forest Protocol kickoff webinar (in Spanish):

Wednesday, March 29, 2023

11:00 am - 1:00 pm Guatemala time | 10:00 am - 12:00 pm PT

[Register here](#)

Please visit the [Guatemala Forest Protocol](#) development page for more information on the protocol development process, including workgroup application and development timeline.

---

## Join us March 9 for the second workgroup meeting for the Dominican Republic Livestock Protocol

The Reserve will be hosting the second workgroup meeting (in Spanish) for the [Dominican Republic Livestock Protocol](#) on Thursday, March 9, 11:00 am – 1:00 pm PT (3:00 pm – 5:00 pm AST). Register as an observer [here](#). Documents and the recording for the first workgroup meeting are available on the [Dominican Republic Livestock Protocol webpage](#).

---

## Join us March 15 for the second workgroup meeting for the Panama Forest Protocol

The Reserve will hold its second workgroup meeting (in Spanish) for the

Panama Forest Protocol on Wednesday, March 15, 11:00 am – 1:00 pm

Panama time (9:00 am - 11:00 am PT). [Register here](#). For information on the protocol development process, please visit the [Panama Forest Protocol webpage](#).

---

## How to navigate the public registry - recorded tutorials and upcoming webinar

Short tutorial videos on navigating the Reserve software are now available in Spanish. Videos include how to open an account, navigate public reports to find project information, and navigate the Project Offset Credits Issued Public Report. Tutorial videos are currently available in Spanish, and English tutorials are coming soon. Visit our [Program Resource page](#) to view these videos.

Join us for a webinar providing an introduction to the Reserve Registry, review of public reports, and opportunity to ask your questions about the Registry.

Presented in Spanish. Thursday, March 16, 9:00 am - 10:00 am PT | 10:00 am - 11:00 am Mexico time. [Register here](#).

### Climate Forward

## Climate Forward Reduced Emissions from Megafires Forecast Methodology will be available soon for project submission

The Reserve is pleased to announce that the [Reduced Emissions from Megafires Forecast Methodology](#) v1.0 will soon be available for project submission under the Climate Forward program. The methodology addresses greenhouse gas emissions impacts associated with fuel reduction activities in forested landscapes that modify wildfire severity and behavior. Forecast methodologies provide eligibility rules and quantification, reporting, and confirmation requirements for mitigation projects to account for ex ante greenhouse gas reductions in order to generate Forecasted Mitigation Units (FMUs).

### Employment

## We're hiring! Check out our current openings

We are currently hiring for Vice President of Policy, Analytical Manager, and Analytical Associate for Latin America. For more information on the positions and how to apply, please visit the [Reserve's employment page](#).

[Check out job opportunities at the Reserve](#)

(NACW) conference on March 21-23.

### Can you name the four breakout paths at NACW 2023?

Please send responses to: [newsletter@climateactionreserve.org](mailto:newsletter@climateactionreserve.org). One response will be randomly selected to win a Reserve/NACW gift prize!

## ABOUT THE CLIMATE ACTION RESERVE

The **Climate Action Reserve** is the most trusted, efficient, and experienced offset registry for global carbon markets. A pioneer in carbon accounting, the Reserve promotes and fosters the reduction of greenhouse gas (GHG) emissions through credible market-based policies and solutions. As a high quality offset registry for voluntary carbon markets, it establishes rigorous standards and issues carbon credits under those standards. The Reserve also supports compliance carbon markets and serves as an approved Offset Project Registry for the State of California's Cap-and-Trade Program. The Reserve is an environmental nonprofit organization headquartered in Los Angeles, California with satellite offices around the world. For more information, please visit [www.climateactionreserve.org](http://www.climateactionreserve.org). *The Reserve is an equal opportunity provider.*
