

The most trusted, efficient, and experienced
carbon credit registry for global carbon markets

CLIMATE ACTION NEWS

March 2024

President's letter

Greetings,

The interest in and growth of the North American Carbon World (NACW) conference demonstrates the confidence and excitement of the carbon and climate community in market-based solutions to provide the capital, scale, and innovation necessary to address the climate crisis. NACW 2024 is shaping up to be one of the most successful in its history with an unprecedented number of sponsors and delegates, and an outstanding program featuring the key topics and emerging trends that are driving progress and success in carbon markets and climate policies.

In addition to outstanding speakers, sessions, and insights, NACW provides a venue for carbon professionals to meet, build relationships, and develop collaborative partnerships across sectors. These conversations and meetings are crucial to knowledge-sharing, jumpstarting new innovations, and strengthening connections that will advance not only your career or your organization's profile, but also advance the global journey to a low-carbon future.

We hope to see you in a few weeks in San Francisco where we can share ideas on building confidence, ambition, and scale in carbon markets and expanding opportunities for new and more greenhouse gas emissions reductions and

sequestration. <https://www.nacwconference.com/>

Kind regards,

Craig Ebert

President

NACW 2024

Time is running out to register for NACW 2024: March 19-21 in San Francisco!

NACW is North America's premier event to learn, collaborate, and network on carbon markets and climate policy. NACW 2024 will dive into the latest updates on markets and finance, policy, implementation, and innovation and scaling in carbon credits. Read [testimonials from leading carbon companies](#) on how NACW is the "must attend" carbon conference and attendees "always come away from NACW with new ideas, connections and opportunities." Register at <https://www.nacwconference.com/>

Reserve offset program

Join us March 7 for a kickoff webinar on the development of the Argentina Livestock Protocol

The Reserve is kicking off the development of the Argentina Livestock Protocol. The protocol will support GHG emission reductions associated with installing a manure biogas control system for livestock operations, such as dairy cattle, beef

cattle, and swine farms, in Argentina. For more information on the protocol development process, including registration for the kickoff webinar on March 7, workgroup application, local stakeholder engagement, and development timeline, please visit the [Argentina Livestock Protocol development page](#).

U.S. and Mexico Livestock Protocols undergoing update

The [U.S. Livestock Protocol](#) and [Mexico Livestock Protocol](#) are currently undergoing an update. Stakeholders may submit revision suggestions to rmooney@climateactionreserve.org.

Updated resources for the Grassland Protocol now available

Version 2.1G of the GrassTool and the 2024 Grassland Parameters Spreadsheet are now available. The tools were updated to include the 2024 Cropland Premium. The tools can be requested from policy@climateactionreserve.org.

Updated resources for Livestock Protocols now available

The Reserve has developed Livestock Calculation Tools for the [U.S. Livestock Protocol](#) (Reserve and ARB), [Dominican Republic Livestock Protocol](#), and [Mexico Livestock Protocol](#) to assist with the quantification of projects under the protocols. Use of the tools are optional, but only the most current version should be used for project quantification.

Reserve welcomes new hires to the Analytical team

The Reserve hired two new staff members: Edith Guerrero Calderon as Administrator Analyst and Jocelyn Urias as Analytical Associate. Edith will support administration, database management, and customer relations under the Reserve program and Jocelyn will support the Waste Handling and Methane Destruction and LATAM Forest sector teams.

Ask us anything about offsets!

Do you have questions about carbon offsets or markets? Our expert staff want to address myths, misunderstandings, and muddled impressions with facts and lessons learned from over 20+ years of experience. Send your questions to newsletter@climateactionreserve.org and we'll answer here and on our website.

Offset project video gallery

We're excited to highlight the local impact and social benefits of carbon offset projects registered with the Reserve. We invite communities and project developers to create short videos showcasing their project's positive impact. Check out our latest video in the series highlighting [Conservación y Captura de Carbono Co2ltzingo](#).

- Project name: [Conservación y Captura de Carbono Co2ltzingo](#)
- Project ID: CAR1285
- Community name: Ejido Santiago Coltzingo
- Project Developer: INTEGRADORA DE COMUNIDADES INDIGENAS Y CAMPESINAS DE OAXACA AC
- Total project hectares: 1,466
- State: Puebla
- Activity Type: Improved Forest Management

Protocol development

Participate in the Reserve's multi-stakeholder protocol development process

The Reserve is working to expand into new sectors and jurisdictions. We welcome your participation and feedback during the protocol development process. Check out our current protocol development efforts, including newly

available workgroup meeting notices, recordings, presentations, and notes:

Trivia corner

The Reserve is hosting the North American Carbon World (NACW) conference March 19-21 in San Francisco, California.

What anniversary is the NACW conference celebrating this year?

Please send responses to: newsletter@climateactionreserve.org. One response will be randomly selected to win a Reserve-branded mousepad!

ABOUT THE CLIMATE ACTION RESERVE

The **Climate Action Reserve** is the most trusted, efficient, and experienced offset registry for global carbon markets. A pioneer in carbon accounting, the Reserve promotes and fosters the reduction of greenhouse gas (GHG) emissions through credible market-based policies and solutions. As a high-quality offset registry for voluntary carbon markets, it establishes rigorous standards involving multi-sector stakeholder workgroup development and local engagement and issues carbon credits in a transparent and publicly available system. The organization also supports compliance carbon markets in California, Washington and internationally. The Reserve is an environmental nonprofit organization headquartered in Los Angeles, California with staff members located around the world. For more information, please visit www.climateactionreserve.org. *The Reserve is an equal opportunity provider.*
